READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Commentary on Annex A

Reasons for Revisions to Sentencing Guidelines

Pennsylvania's initial sentencing guidelines became effective June 2, 1982 and were subsequently amended on ten occasions, most recently in 2008. The current sentencing guidelines (6th Edition, Revised) became effective December 5, 2008, and apply to all offenses committed on or after that date.

The Commission herein proposes revisions to the 6th Edition, Revised sentencing guidelines in the following areas: modification of Youth and School Enhancement; integration of Act 95 of 2010 and Walsh Act's (Act 111 of 2011) sex offense tiered structure and sexual violent predator status; assignment of new offense gravity scores to certain offenses or modified offenses; and correction of typographical errors and omissions in the 6th Edition, Revised sentencing guidelines.

Revisions to 303.1—Sentencing guidelines standards

The 6th Edition, Revised, Sentencing Guidelines were effective December 5, 2008. They are applicable to all offenses committed on or after that date.

Revisions to 303.2—Procedure for determining the guideline sentence

No changes.

Revisions to 303.3—Offense gravity score—general

Clarification on the assignment of an omnibus offense gravity score was added in 303.3(f).

Revisions to 303.4—Prior record score—categories

No changes.

Revisions to 303.5—Prior record score—prior convictions

No changes.

Revisions to 303.6—Prior record score—prior juvenile adjudications

No changes.

Revisions to 303.7—Prior record score—guideline points scoring

The following offenses were removed from 303.7(4), misdemeanor 1 offenses that involve danger to children, which are awarded one point for each prior conviction or adjudication: corruption of minors (of a sexual nature)

and unlawful contact or communication with a minor. These offenses are now felonies.

Revisions to 303.8—Prior record score—miscellaneous

No changes.

Revisions to 303.9—Guideline sentence recommendation: general

The Youth and School Enhancement is modified to correlate with established mandatory minimum sentences. It was subdivided into three parts: youth, school, and youth and school. An enhancement applies upon conviction. Six months are added to the lower limit and 12 months to the upper limit of the standard range for the youth enhancement. Twelve months are added to the lower limit and 24 months are added to the upper limit of the standard range for the school enhancement. Eighteen months are added to the lower limit and 36 months to the upper limit of the standard range for the youth and school enhancement. The court shall consider the applicable matrix in 303.17, related to youth, school, or youth and school.

Revisions to 303.10—Guideline sentence recommendation: enhancements

The school zone in the Youth and School Enhancement was reduced from 1,000 feet to 250 feet.

The Youth and School Enhancement was subdivided into three parts to reflect mandatory minimum sentences (see 303.9).

Revisions to 303.11—Guideline sentence recommendation: sentencing levels

As of November 24, 2011 changes in the place of confinement were effective in accordance with Act 81 of 2008. A sentence of confinement when the maximum sentence is 24 months or more is presumptively considered a state sentence and will be served in state prison. However, Level 4 of the Sentencing Guidelines may include sentences in which an offender will be housed in a county jail if the county jail is certified less than 110% of the rated capacity. Offenders sentenced to incarceration for the offense of driving under the influence and subject to the extended supervision of the court provision in Chapter 38 of the DUI Statute may serve their sentences in county jails.

Revisions to 303.12—Guideline sentence recommendation: sentencing programs

Edits are made to reflect updates in citations. Act 95 of 2010 replaced Title 42 with Title 61.

Revisions to 303.13—Guideline sentence recommendation: aggravated and mitigated circumstances

The lowest mitigated sentence recommendation is added for the Youth and School Enhancement: 6 months for the youth enhancement, 12 months for the school enhancement, and 18 months for the youth and school enhancement.

Revisions to 303.14—Guideline sentence recommendations—economic sanctions

No changes.

Revisions to 303.15—Offense listing

Title 18

Inchoates are solicitation, conspiracy, or attempt of an offense and generally are assigned an offense gravity score one point lower than a completed offense. As noted

in the offense listing foot notes, inchoates apply to 4-point prior record scores. §§ 303.7(c) and 303.8(b) refer to inchoate offenses. Inchoate offenses are removed from the offense listing as they do not need to be explicitly listed. They remain in the SGS Web application and are automatically calculated. Act 111 of 2011 (Walsh Act)

Act 111 of 2011 (Walsh Act) assigns certain sexual offenses to one of three tiers. The Act created new offenses and subcategorized various existing offenses by age. The Commission took two actions to address the Walsh Act. First, any offense that falls under one of the three tiers identified in the Walsh Act is explicitly listed in the offense listing. Definition and offense codes are edited to reflect the Walsh Act. Second, the Commission created a floor for any Walsh Act offense. An offense included in a tier will be assigned a minimum of one point greater than the omnibus offense gravity score.

New offenses in Act 111 of 2011:

3122.1(b)	Statutory sexual assault (victim <16 and offender 11 years or more older);
3124.2(a.2)	Institutional sexual assault by school volunteer or employee;

4915(a)(3)	Sexual offender registration, failure to provide accurate information, transient or out of state offender (expires December 19, 2012);
4915(a.1)(1)(2)	Failure to comply with counseling.

Annex A

TITLE 204. JUDICIAL SYSTEM GENERAL PROVISIONS

PART VIII. CRIMINAL SENTENCING

CHAPTER 303. SENTENCING GUIDELINES

§ 303.1. Sentencing guidelines standards.

(a) The court shall consider the sentencing guidelines in determining the appropriate sentence for offenders convicted of, or pleading guilty or nolo contendere to, felonies and misdemeanors. Where crimes merge for sentencing purposes, the court shall consider the sentencing guidelines only on the offense assigned the higher offense gravity score.

(b) The sentencing guidelines do not apply to sentences imposed as a result of the following: accelerated rehabilitative disposition; disposition in lieu of trial; direct or indirect contempt of court; violations of protection from abuse orders; revocation of probation, intermediate punishment or parole.

(c) The sentencing guidelines shall apply to all offenses committed on or after the effective date of the guidelines. Amendments to the guidelines shall apply to all offenses committed on or after the date the amendment becomes part of the guidelines.

(1) When there are current multiple convictions for offenses that overlap two sets of guidelines, the former guidelines shall apply to offenses that occur prior to the effective date of the amendment and the later guidelines shall apply to offenses that occur on or after the effective date of the amendment. If the specific dates of the offenses cannot be determined, then the later guidelines shall apply to all offenses.

(2) The initial sentencing guidelines went into effect on July 22, 1982 and applied to all crimes committed on or after that date. Amendments to the guidelines went into effect in June 1983, January 1986 and June 1986. On October 7, 1987 the Pennsylvania Supreme Court invalidated the guidelines due to a procedural error that occurred in 1981 when the legislature rejected the first set of guidelines. New guidelines were drafted and became effective on April, 25, 1988. Amendments to the guidelines went into effect August 9, 1991 and December 20, 1991. Revised sets of guidelines became effective August 12, 1994, June 13, 1997 [**and**], June 3, 2005, **and December 5, 2008.**

(d) In every case in which a court of record imposes a sentence for a felony or misdemeanor, the court shall make as a part of the record, and disclose in open court at the time of sentencing, a statement of the reason or reasons for the sentence imposed. In every case where a court of record imposes a sentence outside the sentencing guidelines, the reason or reasons for the deviation from the guidelines shall be recorded on the Guideline Sentence Form, a copy of which shall be electronically transmitted to the Pennsylvania Commission on Sentencing in the manner described in § 303.1(e).

(e) Unless otherwise provided by the Commission, the JNET-based Sentencing Guidelines Software Web application (SGS Web) shall be used at the court's direction to prepare all guideline-required sentencing information. The completed Guideline Sentence Form shall be made a part of the record and the information electronically submitted to the Commission via SGS Web no later than 30 days after the date of sentencing.

§ 303.2. Procedure for determining the guideline sentence.

(a) For each conviction offense of a judicial proceeding, the procedure for determining the guideline sentence shall be as follows:

(1) Determine the Offense Gravity Score as described in § 303.3 and § 303.15.

(2) Determine the Prior Record Score as described in § 303.4—§ 303.8.

(3) Determine the guideline sentence recommendation as described in § 303.9—§ 303.14, including Deadly Weapon Enhancement and Youth/School Enhancement (§ 303.10), and aggravating or mitigating circumstances (§ 303.13).

(b) *Judicial proceeding.* A judicial proceeding is a proceeding in which all offenses for which the offender has been convicted are pending before the court for sentencing at the same time. A judicial proceeding may include multiple offenses and transactions.

§ 303.3. Offense Gravity Score—general.

(a) *An Offense Gravity Score is given for each offense.* The Offense Gravity Scores are located in § 303.15.

(b) *Subcategorized offenses.* Certain offenses are subcategorized and scored by the Commission according to the particular circumstances of the offense. The court determines which Offense Gravity Score, located in § 303.15, applies. These offenses are designated by an asterisk [*].

(c) *Inchoate offenses.* Inchoate offenses are scored as follows:

(1) Convictions for attempt, solicitation, or conspiracy to commit a Felony 1 offense receive an Offense Gravity Score of one point less than the offense attempted, solicited, or which was the object of the conspiracy.

(2) Convictions for attempt, solicitation, or conspiracy to commit any offense which is not a Felony 1 offense, receive the Offense Gravity Score of the offense attempted, solicited, or which was the object of the conspiracy.

(3) Convictions for attempt, solicitation, or conspiracy to commit any offense under The Controlled Substance, Drug, Device and Cosmetic Act (35 P.S. § 780-101—§ 780-144) receive the Offense Gravity Score of the offense attempted, solicited, or which was the object of the conspiracy.

(4) *Exception for inchoate murder convictions.* Convictions for attempt, solicitation, or conspiracy to commit murder receive the Offense Gravity Score of 14 if there is serious bodily injury and 13 if there is no serious bodily injury.

(d) *Ethnic Intimidation.* Convictions for Ethnic Intimidation (18 Pa.C.S. § 2710) receive an Offense Gravity Score that is one point higher than the offense which was the object of the Ethnic Intimidation. When the object offense is murder of the third degree, a conviction for Ethnic Intimidation receives the highest Offense Gravity Score.

(e) *Violations of The Controlled Substance, Drug, Device and Cosmetic Act (35 P.S. § § 780-101—780-144).* If any mixture or compound contains any detectable amount of a controlled substance, the entire amount of the mixture or compound shall be deemed to be composed of the controlled substance. If a mixture or compound contains a detectable amount of more than one controlled

substance, the mixture or compound shall be deemed to be composed entirely of the controlled substance which has the highest Offense Gravity Score.

(1) *Exception for prescription pills.* The exception to subsection (e) above is for violations of 35 P.S. § 780-113 (a)(12), (a)(14), and (a)(30) when narcotic prescription pills of Schedule II are involved. For such violations it is the number of pills rather than the amount of the controlled substance which is considered in determining the Offense Gravity Score. (See § 303.15.)

(f) *Omnibus Offense Gravity Scores.* The Omnibus Offense Gravity Score is applied when the offense is not otherwise listed in § 303.15, or when the grade of an offense listed in § 303.15 has changed, unless application of this section would result in a lower Offense Gravity Score for an increased grading of the offense. **Where the definition of the crime is changed, but the grade or statutory maximum sentence is not changed, the previously assigned offense gravity score still applies.** The Omnibus Offense Gravity Scores are provided below and in the listing at § 303.15:

Felony 1	8
Felony 2	7
Felony 3	5
Felonies not subclassified by the General Assembly	5
Misdemeanor 1	3
Misdemeanor 2	2
Misdemeanor 3	1
Misdemeanors not subclassified by the General Assembly	1

§ 303.4. Prior Record Score—categories.

(a) *Prior Record Score categories.* Determination of the correct Prior Record Score category under this section is based on the type and number of prior convictions (§ 303.5) and prior juvenile adjudications (§ 303.6). There are eight Prior Record Score categories: Repeat Violent Offender (REVOC), Repeat Felony 1 and Felony 2 Offender (RFEL), and point-based categories of 0, 1, 2, 3, 4 and 5.

(1) *Repeat Violent Offender Category (REVOC).* Offenders who have two or more previous convictions or adjudications for four point offenses (§ 303.7(a)(1) and § 303.15) and whose current conviction carries an Offense Gravity Score of 9 or higher shall be classified in the Repeat Violent Offender Category.

(2) *Repeat Felony 1 and Felony 2 Offender Category (RFEL).* Offenders who have previous convictions or adjudications for Felony 1 and/or Felony 2 offenses which total 6 or more in the prior record, and who do not fall within the Repeat Violent Offender Category, shall be classified in the repeat Felony 1 and Felony 2 Offender Category.

(3) *Point-based Categories (0-5).* Offenders who do not fall into the REVOC or RFEL categories shall be classified in a Point-based Category. The Prior Record Score shall be the sum of the points accrued based on previous convictions or adjudications, up to a maximum of five points.

§ 303.5. Prior Record Score—prior convictions.

(a) If there is a single offense in the prior judicial proceeding, that offense shall be counted in the calculation of the Prior Record Score.

(b) If there are multiple offenses in the prior judicial proceeding:

(1) The most serious offense of the judicial proceeding shall be counted in the calculation of the Prior Record Score.

(2) Any offense for which a sentence of supervision or confinement is imposed consecutive to a sentence for another offense in the judicial proceeding shall be counted in the calculation of the Prior Record Score.

(c) *Un-sentenced convictions.* If no sentence has yet to be imposed on an offense, the offense shall not be counted in the calculation of the Prior Record Score.

(d) *Adequacy of the Prior Record Score.* The court may consider at sentencing [**previous**] **prior** convictions, juvenile adjudications or dispositions not counted in the calculation of the Prior Record Score, in addition to other factors deemed appropriate by the court.

§ 303.6. Prior Record Score—prior juvenile adjudications.

(a) *Juvenile adjudication criteria.* Prior juvenile adjudications are counted in the Prior Record Score when the following criteria are met:

(1) The juvenile offense occurred on or after the offender's 14th birthday, and

(2) There was an express finding by the juvenile court that the adjudication was for a felony or one of the Misdemeanor 1 offenses listed in § 303.7(a)(4).

(b) Only the most serious juvenile adjudication of each prior disposition is counted in the Prior Record Score. No other prior juvenile adjudication shall be counted in the Prior Record Score.

(c) *Lapsing of juvenile adjudications.* Prior juvenile adjudications for four point offenses listed in § 303.7(a)(1) shall always be included in the Prior Record Score, provided the criteria in subsection (a) above are met:

(1) All other juvenile adjudications not identified above in subsection (a) lapse and shall not be counted in the Prior Record Score if:

(i) The offender was 28 years of age or older at the time the current offense was committed; and

(ii) The offender remained crime-free during the ten-year period immediately preceding the offender's 28th birthday.

(iii) Crime-free. Included in the definition of crime-free is any summary offense and/or one misdemeanor offense with a statutory maximum of one year or less.

(2) Nothing in this section shall prevent the court from considering lapsed prior adjudications at the time of sentencing.

§ 303.7. Prior Record Score—guideline points scoring.

(a) Scoring of prior convictions and adjudications is provided below and in the listing of offenses at § 303.15:

(1) *Four Point Offenses.* Four points are added for each prior conviction or adjudication for the following offenses:

Murder, and attempt, solicitation or conspiracy to commit Murder

All other completed crimes of violence, as defined in 42 Pa.C.S. § 9714(g), excluding inchoates.

Murder of Unborn Child, and attempt, solicitation or conspiracy to commit Murder of Unborn Child

Offenses with OGS 11 or greater, excluding inchoates and Violations of the Controlled Substance Act

Ethnic Intimidation to any Felony 1 offense

(2) *Three Point Offenses.* Three points are added for each prior conviction or adjudication for the following offenses:

All other Felony 1 offenses not listed in § 303.7(a)(1).

All other inchoates to offenses listed in § 303.7(a)(1).

Violation of 35 P. S. §§ 780-113(a)(12)(14) or (30) involving 50 grams or more, including inchoates involving 50 grams or more.

(3) *Two Point Offenses.* Two points are added for each prior conviction or adjudication for the following offenses:

All other Felony 2 offenses not listed in § 303.7(a)(1) or (a)(2).

All felony drug violations not listed in § 303.7(a)(2), including inchoates.

(4) *One Point Offenses.* One point is added for each prior conviction or adjudication for the following offenses:

Use or Possession of Electric or Electronic Incapacitation Device

Possession of Weapon on School Property

Possession of Firearm or Other Dangerous Weapon in Court Facility

Violations of the Pennsylvania Uniform Firearms Act

Any of the following Misdemeanor 1 offenses that involve death or danger to children:

Involuntary Manslaughter

Simple Assault (against child under 12 years of age by adult 21 years of age or older)

Luring a Child into a Vehicle

Indecent Assault (complainant is less than 13 years of age)

Indecent Exposure (persons present are less than age 16)

Unlawful contact or communication with minor]

Driving Under the Influence of Alcohol or Controlled Substance, except for a first lifetime conviction or adjudication.

Operating a Watercraft Under the Influence of Alcohol or a Controlled Substance, except for a first lifetime conviction or adjudication.

(5) *Other Misdemeanor Offenses.* All other misdemeanor offenses, including a first lifetime conviction for Driving Under the Influence of Alcohol or a Controlled Substance or Operating a Watercraft Under the Influence of Alcohol or a Controlled Substance, are designated by an "m" in the offense listing at § 303.15, and are scored as follows:

(i) One point is added if the offender was previously convicted of two or three misdemeanors.

(ii) Two points are added if the offender was previously convicted of four to six misdemeanors.

(iii) Three points are added if the offender was previously convicted of seven or more misdemeanors.

§ 303.8. Prior Record Score—miscellaneous.

(a) *Prior convictions and adjudications of delinquency.* A prior conviction means “previously convicted” as defined in 42 Pa.C.S. § 2154(a)(2). A prior adjudication of delinquency means “previously adjudicated delinquent” as defined in 42 Pa.C.S. § 2154(a)(2). In order for an offense to be considered in the Prior Record Score, both the commission of and conviction for the previous offense must occur before the commission of the current offense.

(b) *Inchoate offenses.* Unless otherwise provided in § 303.7 or § 303.15, a prior conviction or adjudication of delinquency for criminal attempt, criminal solicitation or criminal conspiracy is scored under § 303.7 based upon the grade of the inchoate offense.

(c) *Ethnic Intimidation.* Unless otherwise provided in § 303.7 or § 303.15, a prior conviction or adjudication of delinquency for Ethnic Intimidation is scored under § 303.7 based upon the grade of the Ethnic Intimidation.

(d) *Former Pennsylvania offenses.*

(1) A prior conviction or adjudication of delinquency under former Pennsylvania law is scored as a conviction for the current equivalent Pennsylvania offense.

(2) When there is no current equivalent Pennsylvania offense, prior convictions or adjudications of delinquency are scored under § 303.7 based on the grade of the offense. When a prior conviction or adjudication of delinquency was for a felony, but the grade of the felony is unknown, it shall be treated as a Felony 3. When a prior conviction was for a misdemeanor, but the grade of the misdemeanor is unknown, it shall be treated as other misdemeanors. When it cannot be determined if the prior conviction was a felony, one point misdemeanors, or other misdemeanors, it shall be treated as other misdemeanors. When a prior conviction is for a crime which has a summary grade, and the grade of the conviction is unknown, the prior conviction shall not be counted in the Prior Record Score.

(e) A prior conviction or adjudication of delinquency for an offense which was misgraded is scored as a conviction for the current equivalent Pennsylvania offense.

(f) *Out-of-state, federal or foreign offenses.*

(1) An out-of-state, federal or foreign conviction or adjudication of delinquency is scored as a conviction for the current equivalent Pennsylvania offense.

(2) A court-martial for a criminal offense under the Uniform Code of Military Justice is considered a federal conviction and is scored as a conviction for the current equivalent Pennsylvania offense. Non-judicial punishments or administrative actions (e.g., Article 15, Article 134) which are not convictions shall not be counted in the Prior Record Score.

(3) When there is no current equivalent Pennsylvania offense, determine the current equivalent Pennsylvania grade of the offense based on the maximum sentence permitted, and then apply § 303.8(d)(2).

(g) *Excluded offenses, charges and convictions.* The following types of offenses, charges and convictions shall not be scored in the Prior Record Score:

(1) Summary offenses, violations of local ordinances, direct or indirect contempt of court, violation of protection from abuse orders, and dispositions under Pa.R.Crim.P. Rules 300–320 (relating to accelerated rehabilitative disposition), 35 P.S. § 780-117 (relating to probation without verdict) or 35 P.S. § 780-118 (relating to disposition in lieu of trial or criminal punishment).

(2) A charge which is nolle prossed, dismissed, or on which a demurrer is sustained.

(3) Any prior conviction which contributed to an increase in the grade of a subsequent conviction, except for prior Driving Under the Influence of Alcohol or Controlled Substance convictions.

§ 303.9. Guideline sentence recommendation: general.

(a) *Basic sentence recommendations.* Guideline sentence recommendations are based on the Offense Gravity Score and Prior Record Score. In most cases, the sentence recommendations are found in the Basic Sentencing Matrix (§ 303.16). The Basic Sentencing Matrix specifies a range of sentences (i.e.—standard range) that shall be considered by the court for each combination of Offense Gravity Score (OGS) and Prior Record Score (PRS).

(b) *Deadly Weapon Enhancement sentence recommendations.* If the court determines that an offender possessed a deadly weapon pursuant to § 303.10(a)(1), the court shall instead consider the DWE/Possessed Matrix (§ 303.17). If the court determines that an offender used a deadly weapon pursuant to § 303.10(a)(2), the court shall instead consider the DWE/Used Matrix (§ 303.18). Both enhanced matrices specify a range of sentences (i.e.—standard range) that shall be considered by the court for each combination of Offense Gravity Score (OGS) and Prior Record Score (PRS).

(c) *Youth/School Enhancement sentence recommendations.* If the court determines that an offender violated the drug act pursuant to § 303.10(b), [**12 months shall be added to the lower limit of the standard range of the applicable sentencing matrix and 36 months shall be added to the upper limit of the standard range of the applicable sentencing matrix**] the court shall consider the applicable matrix in 303.17, related to youth, school, or youth and school. When applying the youth enhancement, 6 months are added to the lower limit of the standard range and 12 months are added to the upper limit of the standard range. When applying the school enhancement, 12 months are added to the lower limit of the standard range and 24 months are added to the upper limit of the standard range. When both the youth and school enhancement is applied, 18 months are added to the bottom of the standard range and 36 months are added to the upper limit of the standard range. The range of sentences (i.e.—standard range) shall be considered by the court for each combination of Offense Gravity Score (OGS) and Prior Record Score (PRS).

(d) *Aggravated and mitigated sentence recommendations.* To determine the aggravated and mitigated sentence recommendations, apply § 303.13.

(e) *Numeric sentence recommendations.* All numbers in sentence recommendations suggest months of minimum confinement pursuant to 42 Pa.C.S. § 9755(b) (partial confinement) and § 9756(b) (total confinement).

(f) *Alphabetic sentence recommendations.* RS in the sentence recommendation, an abbreviation for Restorative

Sanctions, suggests use of the least restrictive, non-confinement sentencing alternatives described in 42 Pa.C.S. § 9753 (determination of guilt without further penalty), § 9754 (order of probation) and § 9758 (fine). 42 Pa.C.S. § 9721(c) (mandatory restitution) is also included in RS. No specific recommendations are provided for periods of supervision for these non-confinement sentencing alternatives. Recommendations related to fines and community service are found at § 303.14(a). RIP in the sentence recommendation, an abbreviation for Restrictive Intermediate Punishments, suggests use of Restrictive Intermediate Punishments pursuant to § 303.12(a)(4).

(g) When the guideline sentence recommendation exceeds that permitted by 18 Pa.C.S. § 1103 and § 1104 (relating to sentence of imprisonment for felony and misdemeanor) and 42 Pa.C.S. § 9755(b) and § 9756(b) (relating to sentence of partial and total confinement) or other applicable statute setting the maximum term of confinement, then the statutory limit is the longest guideline sentence recommendation. For the purposes of the guidelines, the statutory limit is the longest legal minimum sentence, which is one-half the maximum allowed by law.

(h) *Mandatory sentences.* The court has no authority to impose a sentence less than that required by a mandatory minimum provision established in statute. When the guideline range is lower than that required by a mandatory sentencing statute, the mandatory minimum requirement supersedes the sentence recommendation. When the sentence recommendation is higher than that required by a mandatory sentencing statute, the court shall consider the guideline sentence recommendation.

(i) *Mandatory sentences for which county intermediate punishment is authorized.* The court shall consider the sentence recommendations pursuant to this section (§ 303.9) for an offender convicted under 30 Pa.C.S. § 5502 (Operating a Watercraft Under the Influence of Alcohol or a Controlled Substance), 75 Pa.C.S. § 1543(b) (Driving While Operating Privilege is Suspended or Revoked, Certain Offenses), 75 Pa.C.S. § 3802 (Driving Under the Influence of Alcohol or Controlled Substance) or 75 Pa.C.S. § [1543(b)] 3808(a)(2) (Illegally Operating a Motor Vehicle Not Equipped with Ignition Interlock). The court may use a Qualified Restrictive Intermediate Punishment pursuant to § 303.12(a)(6) to satisfy the mandatory minimum requirement as provided by law.

§ 303.10. Guideline sentence recommendations: enhancements.

(a) Deadly Weapon Enhancement.

(1) When the court determines that the offender possessed a deadly weapon during the commission of the current conviction offense, the court shall consider the DWE/Possessed Matrix (§ 303.17). An offender has possessed a deadly weapon if any of the following were on the offender's person or within his immediate physical control:

(i) Any firearm, (as defined in 42 Pa.C.S. § 9712) whether loaded or unloaded, or

(ii) Any dangerous weapon (as defined in 18 Pa.C.S. § 913), or

(iii) Any device, implement, or instrumentality designed as a weapon or capable of producing death or serious bodily injury where the court determines that the defendant intended to use the weapon to threaten or injure another individual.

(2) When the court determines that the offender used a deadly weapon during the commission of the current conviction offense, the court shall consider the DWE/Used Matrix (§ 303.18). An offender has used a deadly weapon if any of the following were employed by the offender in a way that threatened or injured another individual:

(i) Any firearm, (as defined in 42 Pa.C.S. § 9712) whether loaded or unloaded, or

(ii) Any dangerous weapon (as defined in 18 Pa.C.S. § 913), or

(iii) Any device, implement, or instrumentality capable of producing death or serious bodily injury.

(3) There shall be no Deadly Weapon Enhancement for the following offenses:

(i) Possessing Instruments of Crime

(ii) Prohibited Offensive Weapons

(iii) Possession of Weapon on School Property

(iv) Possession of Firearm or Other Dangerous Weapon in Court Facility

(v) Simple Assault (18 Pa.C.S. § 2701(a)(2))

(vi) Aggravated Assault (18 Pa.C.S. § 2702(a)(4))

(vii) Theft when property stolen is a firearm (18 Pa.C.S. Chapter 39)

(viii) Violations of the Pennsylvania Uniform Firearms Act

(ix) Any other offense for which possession of a deadly weapon is an element of the statutory definition.

(4) The Deadly Weapon Enhancement shall apply to each conviction offense for which a deadly weapon is possessed or used.

(b) Youth/School Enhancement.

(1) When the court determines that the offender [**either**] distributed a controlled substance to a person or persons under the age of 18 [**in violation of 35 P.S. § 780-114, or manufactured, delivered or possessed with intent to deliver a controlled substance within 1000 feet of the real property on which is located a public or private elementary or secondary school**], the court shall consider the range of sentences described in § 303.9(c).

(2) **When the court determines that the offender manufactured, delivered or possessed with intent to deliver a controlled substance within 250 feet of the real property on which is located a public or private elementary or secondary school, the court shall consider the range of sentences described in § 303.9(c).**

(3) **When the court determines both (b)(1) and (b)(2) apply, the court shall consider the range of sentences described in § 303.9(c).**

(4) The Youth/School Enhancement only applies to violations of 35 P.S. § 780-113(a)(14) and (a)(30).

[(3)] (5) The Youth/School Enhancement shall apply to each violation which meets the criteria above.

§ 303.11. Guideline sentence recommendation: sentencing levels.

(a) *Purpose of sentence.* In writing the sentencing guidelines, the Pennsylvania Commission on Sentencing strives to provide a benchmark for the judges of Pennsylvania. The sentencing guidelines provide sanctions pro-

portionate to the severity of the crime and the severity of the offender's prior conviction record. This establishes a sentencing system with a primary focus on retribution, but one in which the recommendations allow for the fulfillment of other sentencing purposes including rehabilitation, deterrence, and incapacitation. To facilitate consideration of sentencing options consistent with the intent of the sentencing guidelines, the Commission has established five sentencing levels. Each level targets certain types of offenders, and describes ranges of sentencing options available to the court.

(b) Sentencing levels. The sentencing level is based on the standard range of the sentencing recommendation. Refer to § 303.9 to determine which sentence recommendation (i.e.—Basic, Deadly Weapon Enhancement or Youth/School Enhancement) applies. When the individual or aggregate minimum sentence recommendation includes confinement in a county facility, county intermediate punishment should be considered in lieu of confinement for an eligible offender. When the individual or aggregate minimum sentence recommendation includes confinement in a state facility, county or state intermediate punishment should be considered in lieu of confinement for an eligible offender. The descriptions of the five sentencing levels are as follows:

(1) *Level 1*—Level 1 provides sentence recommendations for the least serious offenders with no more than one prior misdemeanor conviction, such that the standard range is limited to Restorative Sanctions (RS). The primary purpose of this level is to provide the minimal control necessary to fulfill court-ordered obligations. The following sentencing option is available:

Restorative Sanctions (§ 303.9(f)) (also see § 303.14(a)(4) for Fines/Community Service Guidelines)

(2) *Level 2*—Level 2 provides sentence recommendations for generally non-violent offenders and those with numerous less serious prior convictions, such that the standard range requires a county sentence but permits both incarceration and non-confinement. The standard range is defined as having an upper limit of less than 12 months and a lower limit of Restorative Sanctions (RS). The primary purposes of this level are control over the offender and restitution to victims. Treatment is recommended for drug dependent offenders. The following sentencing options are available:

Total confinement in a county facility under a county sentence [(see 61 P. S. § 331.17).]

Partial confinement in a county facility

County Intermediate Punishment (see § 303.12(a) for eligibility criteria)

Restorative Sanctions (§ 303.9(f)) (also see § 303.14(a)(4) for Fines/Community Service Guidelines)

(3) *Level 3*—Level 3 provides sentence recommendations for serious offenders and those with numerous prior convictions, such that the standard range requires incarceration or County Intermediate Punishment, but in all cases permits a county sentence. The standard range is defined as having a lower limit of incarceration of less than 12 months. Included in Level 3 are those offenses for which a mandatory minimum sentence of less than 12 months applies and for which a state or county intermediate punishment sentence is authorized by statute. The primary purposes of this level are retribution and control over the offender. If eligible, treatment is recommended for drug dependent offenders in lieu of incarceration. The following sentencing options are available:

Total confinement in a state facility

Total confinement in a state facility, with participation in the State Motivational Boot Camp (see § 303.12(b) for eligibility criteria)

State Intermediate Punishment (see § 303.12(c) for eligibility criteria)

Total confinement in a county facility under a [state or] county sentence [(see 61 P. S. § 331.17)] **if the county jail is certified less than 110% of the rated capacity or the offense is a DUI and the offender is subject to the extended supervision of the court provision in Chapter 38 of the DUI statute.**

Partial confinement in a county facility.

County Intermediate Punishment (see § 303.12(a) for eligibility criteria)

(4) *Level 4*—Level 4 provides sentence recommendations for very serious offenders and those with numerous prior convictions, such that the standard range requires state incarceration but permits it to be served in a county facility **if the county facility is certified less than 110% of the rated capacity provision.** The standard range is defined as having a lower limit of incarceration of greater than 12 months but less than 30 months, but limited to offenses with an Offense Gravity Score of less than 9. Included in Level 4 are those offenses for which a mandatory minimum sentence of less than 30 months applies and for which a state or county intermediate punishment sentence is authorized by statute. The primary purposes of the sentencing options at this level are punishment and incapacitation. However, it is recognized that certain offenders at this level are permitted to serve a sentence of total confinement in a county facility, **if the county facility is certified less than 110% of the rated capacity provision established in Act 81 of 2008,** and some non-violent offenders may benefit from drug and alcohol treatment. If eligible, state or county intermediate punishment is recommended for drug dependent offenders. The following sentencing options are available:

Total confinement in a state facility

Total confinement in a state facility, with participation in the State Motivational Boot Camp (see § 303.12(b) for eligibility criteria)

State Intermediate Punishment (see § 303.12(c) for eligibility criteria)

Total confinement in a county facility [as a state offender. (see 61 P. S. § 331.17)] **if the county jail is certified less than 110% of the rated capacity or the offense is a DUI and the offender is subject to the extended supervision of the court provision in Chapter 38 of the DUI statute.**

Partial confinement in a county facility **if the county jail is certified less than 110% of the rated capacity or the offense is a DUI and the offender is subject to the extended supervision of the court provision in Chapter 38 of the DUI statute.**

County Intermediate Punishment (see § 303.12(a) for eligibility criteria)

(5) *Level 5*—Level 5 provides sentence recommendations for the most violent offenders and those with major drug convictions, such that the conviction has an Offense Gravity Score of 9 or greater or the standard range requires state incarceration in a state facility. The standard range in such a case is defined as having a lower

limit of 12 months or greater. Included in Level 5 are those offenses for which a mandatory minimum sentence of 30 months or greater applies and for which a state or county intermediate punishment sentence is authorized by statute. The primary purposes of the sentencing options at this level are punishment commensurate with the seriousness of the criminal behavior and incapacitation to protect the public. If eligible, state or county intermediate punishment is recommended for drug dependent offenders. The following sentencing options are available:

Total confinement in a state facility.

Total confinement in a state facility, with participation in the State Motivational Boot Camp (see § 303.12(b) for eligibility criteria)

State Intermediate Punishment (see § 303.12(c) for eligibility criteria)

Total confinement in a county facility [**as a state offender. (see 61 P. S. § 331.17)] if the county jail is certified less than 110% of the rated capacity or the offense is a DUI and the offender is subject to the extended supervision of the court provision in Chapter 38 of the DUI statute.**

Partial confinement in a county facility **if the county jail is certified less than 110% of the rated capacity or the offense is a DUI and the offender is subject to the extended supervision of the court provision in Chapter 38 of the DUI statute.**

County Intermediate Punishment (see § 303.12.(a) for eligibility criteria)

§ 303.12. Guideline sentence recommendations: sentencing programs.

(a) *County intermediate punishment (CIP).*

(1) *Eligibility.*

(i) The following regulations and statutes govern operation of and eligibility for county intermediate punishment programs:

37 Pa.Code § 451.1 et seq.

42 Pa.C.S. [**§ 9729,**] § 9763, § 9773 and Chapter 98.

204 Pa.Code § 303.8 and § 303.9.

(ii) Sentence recommendations which include an option of County Intermediate Punishment for certain offenders are designated as shaded cells in the guideline matrices.

(2) The county intermediate punishment plan provides a mechanism to advise the court of the extent and availability of services and programs authorized in the county. This plan includes information on the appropriate classification and use of county programs based on program-specific requirements.

(3) *County intermediate punishments classifications.* In order to incorporate county intermediate punishment programs into the sentencing levels, the Commission has classified county intermediate punishment programs as Restrictive Intermediate Punishments (RIP) and restorative sanction programs. Additionally, specific county intermediate punishment programs have been identified in legislation (42 Pa.C.S. §§ 9763(c) and 9804(b)) and regulation (37 Pa. Code § 451.52) as authorized sentences for convictions relating to Operating a Watercraft Under the Influence of Alcohol or a Controlled Substance, Driving While Operating Privilege is Suspended or Revoked, Driving Under the Influence of Alcohol or Controlled Substance and Illegally Operating a Motor Vehicle Not

Equipped with Ignition Interlock; the Commission has classified these programs as Qualified Restrictive Intermediate Punishments.

(4) *Restrictive Intermediate Punishments (RIP).* Restrictive Intermediate Punishments are defined as programs that provide for strict supervision of the offender. The county intermediate punishment board is required to develop assessment and evaluation procedures to assure the appropriate targeting of offenders. All programs must meet the minimum standards provided in the Pennsylvania Commission on Crime and Delinquency regulations (37 Pa. Code Chapter 451) for county intermediate punishments.

(i) Restrictive Intermediate Punishments (RIP) either:

(A) house the offender full or part time; or

(B) significantly restrict the offender's movement and monitor the offender's compliance with the program(s); or

(C) involve a combination of programs that meet the standards set forth above.

(ii) An offender under consideration for Restrictive Intermediate Punishments at Level 4 or Level 3 shall have a diagnostic assessment of dependency on alcohol or other drugs conducted by one of the following: the Pennsylvania Department of Health's Bureau of Drug and Alcohol Programs (BDAP) or a designee; the county authority on drugs and alcohol or a designee; or clinical personnel of a facility licensed by the Bureau of Drug and Alcohol Programs.

(iii) An offender assessed to be dependent shall be evaluated for purposes of a treatment recommendation by one of the above listed assessors. The evaluation shall take into account the level of motivation of the offender. If sentenced to a Restrictive Intermediate Punishment, the sentence shall be consistent with the level of care and length of stay prescribed in the treatment recommendation, regardless of the standard range sentencing recommendation.

(iv) An offender assessed as not in need of drug or alcohol treatment may be placed in any approved Restrictive Intermediate Punishment program. Each day of participation in a Restrictive Intermediate Punishment program or combination of programs shall be considered the equivalent of one day of total confinement for guideline sentence recommendations.

(v) The court may impose a Qualified Restrictive Intermediate Punishment in lieu of incarceration for certain convictions under 75 Pa.C.S. § 3802 (relating to Driving Under the Influence of Alcohol or Controlled Substance).

(5) *Restorative sanction programs.* Restorative sanction programs are the least restrictive, non-confinement intermediate punishments. Restorative sanction programs are generally used in conjunction with Restrictive Intermediate Punishments as the level of supervision is reduced, but may also be used as separate sanctions under any of the non-confinement sentencing alternatives provided in the statute (see § 303.9(f)).

(i) Restorative sanction programs:

(A) are the least restrictive in terms of constraint of offender's liberties;

(B) do not involve the housing of the offender (either full or part time); and

(C) focus on restoring the victim to pre-offense status.

(6) *Qualified Restrictive Intermediate Punishments.* In accordance with 42 Pa.C.S. §§ 9763(c), 9804(b) and 37

Pa. Code § 451, Qualified Restrictive Intermediate Punishment programs may be used to satisfy the mandatory minimum sentencing requirements of certain convictions under 30 Pa.C.S. § 5502(c.1) for a first, second or third offense under 30 Pa.C.S. § 5502, 75 Pa.C.S. § 1543(b), former 75 Pa.C.S. § 3731, 75 Pa.C.S. § 3804 for a first, second or third offense under 75 Pa.C.S. Chapter 38, or 75 Pa.C.S. § 3808(a)(2) Illegally Operating a Motor Vehicle Not Equipped with Ignition Interlock.

(i) Unless otherwise provided in statute, Qualified Restrictive Intermediate Punishment programs include:

(A) if the defendant is determined to be in need of drug and alcohol treatment, and receives a penalty imposed under 75 Pa.C.S. § 1543(b), former 75 Pa.C.S. § 3731, 75 Pa.C.S. § 3804, or 75 Pa.C.S. § 3808(a)(2) a sentence to county intermediate punishment shall include participation in drug and alcohol treatment under 75 Pa.C.S. § 3815(c), and may be combined with:

1. a residential inpatient program or residential rehabilitative center;
2. house arrest with electronic surveillance;
3. a partial confinement program such as work release, a work camp or a halfway facility; or
4. any combination of Qualified Restrictive Intermediate Punishment programs.

(B) if the defendant is determined not to be in need of drug and alcohol treatment, or if the defendant receives a penalty imposed under 30 Pa.C.S. § 5502(c.1), a sentence to county intermediate punishment may only include:

1. house arrest with electronic surveillance; or
2. partial confinement programs such as work release, a work camp or a halfway facility; or
3. any combination of Qualified Restrictive Intermediate Punishment programs.

(b) *State Motivational Boot Camp (BC).*

(1) *Eligibility.*

(i) The following statute governs operation of and eligibility for the State Motivational Boot Camp: [**61 P. S. § 1121—§ 1129**] **61 Pa.C.S. Chapter 39**

(ii) Sentence recommendations which include boot camp eligible offenders are designated by the letters BC in the cells of the Basic Sentencing Matrix (§ 303.16).

(2) The court shall indicate on the offender's commitment order and the Guideline Sentence Form if the offender is authorized as eligible for the boot camp program. The Department of Corrections makes the final determination as to whether the offender will be accepted into the boot camp program.

(c) *State Intermediate Punishment (SIP).*

(1) *Eligibility.*

(i) The following statute governs operation of and eligibility for State Intermediate Punishment: [**42 Pa.C.S. Chapter 99**] **61 Pa.C.S. Chapter 41.**

(ii) Any person convicted of a drug-related offense for which the sentence recommendation includes total confinement in a state facility may be considered for state intermediate punishment.

(2) The court may, upon motion of the Commonwealth and agreement of the defendant, commit a defendant to the custody of the Department of Corrections for the purpose of evaluating whether the defendant would ben-

efit from a drug offender treatment program and whether treatment in a drug offender treatment program is appropriate.

(3) Upon receipt of a recommendation for placement in a drug offender treatment program and an individualized treatment plan from the Department of Corrections, and agreement of the attorney for the Commonwealth and the defendant, the court may sentence an eligible offender to a period of 24 months of state intermediate punishment.

(4) The court may impose a consecutive period of probation. The total duration of a sentence of state intermediate punishment and consecutive probation may not exceed the maximum term for which the eligible offender could otherwise be sentenced.

§ 303.13. Guideline sentence recommendations: aggravated and mitigated circumstances.

(a) When the court determines that an aggravating circumstance(s) is present, it may impose an aggravated sentence as follows:

(1) For the Offense Gravity Scores of 9, 10, 11, 12 and 13 the court may impose a sentence that is up to 12 months longer than the upper limit of the standard range.

(2) For the Offense Gravity Score of 8, the court may impose a sentence that is up to 9 months longer than the upper limit of the standard range.

(3) For the Offense Gravity Scores of 6 and 7, the court may impose a sentence that is up to 6 months longer than the upper limit of the standard range.

(4) For the Offense Gravity Scores of 1, 2, 3, 4, and 5, the court may impose a sentence that is up to 3 months longer than the upper limit of the standard range. When imposing a fine or community service pursuant to § 303.14(a)(4), the court may impose a sentence that is up to 25 hours longer than the upper limit of the standard range.

(5) When the standard range is Restorative Sanctions (RS), the aggravated sentence recommendation is RIP-3.

(b) When the court determines that a mitigating circumstance(s) is present, it may impose a mitigated sentence as follows:

(1) For the Offense Gravity Scores of 9, 10, 11, 12, 13, and 14 the court may impose a sentence that is up to 12 months shorter than the lower limit of the standard range.

(2) For the Offense Gravity Score of 8, the court may impose a sentence that is up to 9 months shorter than the lower limit of the standard range.

(3) For the Offense Gravity Scores of 6 and 7, the court may impose a sentence that is up to 6 months shorter than the lower limit of the standard range.

(4) For the Offense Gravity Scores of 1, 2, 3, 4, and 5, the court may impose a sentence that is up to 3 months shorter than the lower limit of the standard range. When imposing a fine or community service pursuant to § 303.14(a)(4), the court may impose a sentence that is up to 25 hours shorter than the lower limit of the standard range.

(5) When the bottom of the standard range is less than or equal to 3 months of incarceration, the lower limit of the mitigated sentence recommendation is Restorative Sanctions (RS).

(6) In no case where a Deadly Weapon Enhancement is applied may the mitigated sentence recommendation be lower than 3 months.

(7) In no case where the Youth and School Enhancement is applied may the mitigated sentence recommendation be lower than 6 months for the youth enhancement, 12 months for the school enhancement, and 18 months for the youth and school enhancement.

(c) When the court imposes an aggravated or mitigated sentence, it shall state the reasons on the record and on the Guideline Sentence Form, a copy of which is electronically transmitted to the Commission on Sentencing in the manner described in § 303.1(e).

§ 303.14. Guideline sentence recommendations—economic sanctions.

(a) *Fines.*

(1) Fines may be added to any guideline sentence, as authorized by law. Relevant statutes include but are not limited to:

- (i) 18 Pa.C.S. § 1101 (relating to fines)

- (iii) 42 Pa.C.S. § 9726 (relating to fine as a sentence)
- (iv) 42 Pa.C.S. § 9758 (relating to imposition of a fine)
- (v) 75 Pa.C.S. § 3804 (relating to fines for DUI)

(2) A fine, within the limits established by law, shall be considered by the court when the offender is convicted of 35 P.S. § 780-113(a)(12), (14) or (30), and the drug involved is any of the following: a controlled substance or counterfeit substance classified in Schedule I or II and which is a narcotic; phencyclidine, methamphetamine, or cocaine, including the isomers, salts, compounds, salts of isomers, or derivatives of phencyclidine, methamphetamine, or cocaine; or is in excess of one thousand pounds of marijuana. Such fine shall be of an amount that is at least sufficient to exhaust the assets utilized in, and the proceeds obtained by the offender from, the illegal possession, manufacture, or distribution of controlled substances. Such fine shall not include assets concerning which the attorney for the Commonwealth has filed a forfeiture petition or concerning which he has given notice to the court of his intent to file a forfeiture petition.

(3) Fines may be utilized as part of a county intermediate punishment sentence or as a non-confinement sentencing alternative (see restorative sanction § 303.9(f)).

(4) *Fines/Community Service Guidelines.* The following guidelines shall be considered by the court when ordering fines or community service as a Restorative Sanction without confinement. Community service, when ordered, is imposed as a condition of probation. A fine, when ordered, is imposed as a non-confinement sentencing alternative or as a condition of probation. The fines guidelines are determined by multiplying the number of hours recommended by the offender's hourly wage or the current minimum wage, whichever is higher, but may not exceed the statutory maximum fine authorized by law

THE COURTS

Title 225—RULES OF EVIDENCE

[225 PA. CODE ART. VI]

**Amendment of Rule 604 of the Rules of Evidence;
No. 566 Supreme Court Rules Doc.**

Order

Per Curiam

And Now, this 21st day of March, 2012, upon the recommendation of the Committee on Rules of Evidence; the proposal having been published for public comment at 39 Pa.B. 5722 (October 3, 2009) and in the *Atlantic Reporter* (Second Series Advance Sheets, Vol. 978 No. 2):

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 604 of the Pennsylvania Rules of Evidence is amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective in thirty days.

Annex A

TITLE 225. RULES OF EVIDENCE

ARTICLE VI. WITNESSES

Rule 604. [Interpreters] Interpreter.

[An interpreter is subject to the provisions of Rule 702 (relating to qualification as an expert) and Rule 603 (relating to the administration of an oath or affirmation).]

An interpreter must be qualified and must give an oath or affirmation to make a true translation.

Comment

[This rule adopts the substance of F.R.E. 604; the only change is the explicit reference to Pa.Rs.E. 702 and 603, rather than the general reference to “the provisions of these rules” in F.R.E. 604.

The need for an interpreter whenever a witness’ natural mode of expression or the language of a document is not intelligible to the trier of fact is well settled. 3 Wigmore, *Evidence* § 911 (Chadbourn rev. 1970). Under Pa.R.E. 604, an interpreter is treated as an expert witness who must have the necessary skill to translate correctly and who must promise to do so by oath or affirmation.

Pa.R.E. 604 is consistent with those Pennsylvania statutes providing for the appointment of interpreters for the deaf. See 42 Pa.C.S.A. § 7103 (deaf party in a civil case); 2 Pa.C.S.A. 505.1 (deaf party in hearing before Commonwealth agency); 42 Pa.C.S.A. § 8701 (deaf defendant in criminal case); see also *Commonwealth v. Wallace*, 433 Pa. Super. 518, 641 A.2d 321 (1994) (applying § 8701). Under each of these statutes, an interpreter must be “qualified and trained to translate for or communicate with deaf persons” and must “swear or affirm that he will make a true interpretation to the deaf person and that he will repeat the statements of the deaf person to the best of his ability.”

There is little statutory authority for the appointment of interpreters, but the practice is well established. See Pa.R.Crim.P. 231(B) (authorizing presence of interpreter while investigating grand jury is in session if supervising judge determines necessary for presentation of evidence); 51 Pa.C.S.A. § 5507 (under regulations prescribed by governor, convening authority of military court may appoint interpreters). The decision whether to appoint an interpreter is within the discretion of the trial court. See *Commonwealth v. Pana*, 469 Pa. 43, 364 A.2d 895 (1976) (holding that it was an abuse of discretion to fail to appoint an interpreter for a criminal defendant who had difficulty in understanding and expressing himself in English).]

In 2006, legislation was enacted pertaining to the certification, appointment, and use of interpreters in judicial and administrative proceedings for persons having limited proficiency with the English language and persons who are deaf. See 42 Pa.C.S. §§ 4401—4438; 2 Pa.C.S. §§ 561—588. Pursuant to this legislation, the Administrative Office of the Pennsylvania Courts (“AOPC”) has implemented an interpreter program for judicial proceedings. See 204 Pa. Code §§ 221.101—407. Information on the court interpreter program and a roster of court interpreters may be obtained from the AOPC web site at www.pacourts.us/t/aopc/courtinterpreterprog.

Official Note: Adopted May 8, 1998, effective October 1, 1998; Comment revised March 29, 2001, effective April 1, 2001; amended March 21, 2012, effective April 20, 2012.

Title 22—EDUCATION

STATE BOARD OF EDUCATION

[22 PA. CODE CH. 4]

Corrective Amendment to 22 Pa. Code § 4.3

The State Board of Education has discovered a discrepancy between the agency text of 22 Pa. Code § 4.3 (relating to definitions) as deposited with the Legislative Reference Bureau, published at 40 Pa.B. 5903 (October 16, 2010) and the official text published in the *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 434, January 2011). The words “stakeholders. The standards define the knowledge” were inadvertently omitted from the definition of “Common Core State Standards.”

Therefore, under 45 Pa.C.S. § 901: The State Board of Education has deposited with the Legislative Reference Bureau a corrective amendment to 22 Pa. Code § 4.3. The corrective amendment to 22 Pa. Code § 4.3 is effective as of January 1, 2011, the date the defective official text was announced in the *Pennsylvania Bulletin*.

The correct version of 22 Pa. Code § 4.3 appears in Annex A, with ellipses referring to the existing text of the regulation.

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 71]

Fishing; Propagation and Introduction of Fish into Commonwealth Waters

The Fish and Boat Commission (Commission) amends Chapter 71 (relating to propagation and introduction of

fish into Commonwealth waters). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The amendments modify and update the Commission’s fishing regulations.

A. Effective Date

The final-form rulemaking will go into effect on July 1, 2012.

B. Contact Person

For further information on the final-form rulemaking, contact Wayne Melnick, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission’s web site at www.fish.state.pa.us.

C. Statutory Authority

The amendments to § 71.7 (relating to triploid grass carp) are published under the statutory authority of section 2904 of the code (relating to permits for protection and management of particular fish).

D. Purpose and Background

The final-form rulemaking is designed to improve, enhance and update the Commission’s fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

Under section 2904 of the code, the Executive Director, with the Commission’s approval, may require permits for the taking, catching, killing, possession, introduction, removal, importing, transporting, exporting or disturbing of fish when it is determined that the permits may be needed to insure proper protection and management of any species of fish. This section also authorizes the Commission to establish fees and to promulgate regulations. Under the section, the Commission may not establish a fee in excess of \$5 per permit for trout/salmon permits. There is no other restriction on fees. This section further provides that the Commission may not issue permits under the authority of the section for game fish other than trout or salmon.

The Commission adopted regulations at § 71.7 pertaining to the possession and introduction of triploid grass carp (white amur). This section provides that permits shall be required for possessing triploid grass carp, introducing them into Commonwealth waters and importing or transporting them into this Commonwealth to provide for proper protection and management of these fish and other fish in the waters of this Commonwealth. A pond owner, landowner or other person who wishes to possess triploid grass carp and introduce them into a pond or waters located on property owned, leased or otherwise controlled by the person shall, before placing triploid grass carp in the waters, obtain from the Commission a triploid grass carp possession/introduction permit. A person who wishes to import triploid grass carp into this Commonwealth shall obtain from the Commission a triploid grass carp importation/transportation permit.

This program was initiated by the Commission in January 1994. Two types of permits with associated fees were established and those fees are the same today. A triploid grass carp possession/introduction permit is \$20. A triploid grass carp importation/transportation permit is \$50.

For bodies of water that are more than 5 acres in surface area or are considered to be of special concern, an applicant is required to submit an environmental inspection report prepared by a biologist or fisheries or environmental scientist acceptable to the Commission. This is a detailed report that requires personal inspection of the body of water. Section 71.7 stated that the applicant may request the Commission to conduct the inspection and prepare the report upon payment of a fee of \$200. Today, this fee would not begin to cover costs that would be incurred by staff to perform an environmental inspection of a large body of water or a water of special concern.

The Aquatic Resource Section within the Commission's Bureau of Fisheries, Division of Environmental Services administers the triploid grass carp program. Administering the program requires staff to review permit applications, maintain a database, process and approve the permits. Reviewing the applications requires a technical review, some field views and clerical support.

In 2011, the Commission issued 289 triploid grass carp permits. In the past 5 years, approximately 1,500 triploid grass carp permits have been issued by the Commission. Staff time spent reviewing and processing triploid grass carp permits costs approximately \$75 per permit. The Commission therefore has increased the fees in § 71.7 to \$75 to help offset inflation and increasing program costs and to remove the option for applicants to request the Commission to perform the environmental inspection for a \$200 fee. The Commission has amended § 71.7 to read as set forth in the notice of proposed rulemaking published at 41 Pa.B. 5560 (October 15, 2011).

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking, however, will impose new costs on the private sector and the general public. The current fees for a triploid grass carp possession/introduction permit and an importation/transportation permit are \$20 and \$50, respectively. The Commission has increased the fee for both permit types to \$75. These

fee increases will affect the applicants for the approximately 300 to 400 permits that the Commission issues per year.

H. Public Comments

Notice of proposed rulemaking was published at 41 Pa.B. 5560. The Commission did not receive public comments concerning the proposed amendments.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided and no public comments were received.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 71, are amended by amending § 71.7 to read as set forth at 41 Pa.B. 5560.

(b) The Executive Director will submit this order and 41 Pa.B. 5560 to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Executive Director shall certify this order and 41 Pa.B. 5560 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on July 1, 2012.

JOHN A. ARWAY,
Executive Director

Fiscal Note: Fiscal Note 48A-231 remains valid for the final adoption of the subject regulation.

PROPOSED RULEMAKINGS

DEPARTMENT OF LABOR AND INDUSTRY

[34 PA. CODE CHS. 401 AND 403]

Uniform Construction Code

In accordance with section 304 of the Pennsylvania Construction Code Act (act) (35 P.S. § 7210.304), the Department of Labor and Industry (Department) is submitting a proposed rulemaking for the regulation of construction. The Department proposes to amend §§ 401.1 and 403.21 (relating to definitions; and Uniform Construction Code) under the act to read as set forth in Annex A.

Statutory Authority

This proposed rulemaking is issued under the authority in section 304(a)(3) of the act, which provides that the Department shall promulgate regulations updating accessibility standards by adopting Chapter 11 and Appendix E of the International Building Code of 2012, or its successor, by December 31 of the year of issuance of the new code.

Background

The act mandates a process for the adoption of updated building codes issued by the International Code Council. Although most building code provisions are reviewed by the Uniform Construction Code Review and Advisory Council, under section 107 of the act (35 P.S. § 7210.107), the General Assembly excluded accessibility provisions of the International Building Code from review. In 2011, the act was amended to require that the Department regularly adopt updated accessibility standards for the construction, repair or alteration of buildings in this Commonwealth by December 31 of the year of issuance, beginning with Chapter 11 and Appendix E of the International Building Code of 2012. Therefore, the Department is required to adopt these provisions by December 31, 2012. Adoption of the current accessibility standards will ensure that commercial buildings meet current standards for accessible and usable facilities.

The Department has sought input from the Accessibility Advisory Board (Board), created under section 106 of the act (35 P.S. § 7210.106). The Board consists of members appointed by the Secretary, including members with physical disabilities, an architect, a member of the business community, a representative of the multifamily housing industry and a municipal official. Under section 106(b) of the act, the Board has reviewed the proposed rulemaking and given its advice to the Secretary.

Purpose

The purpose of this proposed rulemaking is to adopt recognized international standards for accessible and usable buildings and structures, as directed by the act of April 25, 2011 (P.L. 1, No. 1). The proposed rulemaking brings the Commonwealth's standards for accessible and usable buildings to the current state of the art and conforms to standards issued by the United States Department of Justice under the Americans with Disabilities Act of 1990 (42 U.S.C.A. §§ 12101—12213). Adopting Chapter 11 and Appendix E of the 2012 International Building Code will allow the Department to comply with the act.

Summary of Proposed Rulemaking

§ 401.1. Definitions

This section amends the definition of "International Building Code" to provide that the term includes Chapter 11 and Appendix E of the 2012 edition of the International Building Code. It clarifies that the remaining adopted provisions of the International Building Code are the 2009 edition.

§ 401.21. Uniform Construction Code

This section excludes Chapter 11 and Appendix E of the 2009 International Building Code from the codes adopted as the Uniform Construction Code. It adopts Chapter 11 and Appendix E of the 2012 International Building Code.

Affected Persons

This proposed rulemaking will affect owners of new commercial buildings or commercial buildings undergoing addition, renovation or repair. It also ensures that persons with physical disabilities will be able to access and use commercial buildings in this Commonwealth.

Fiscal Impact

The Commonwealth will incur minimal additional costs under this proposed rulemaking. The costs are related to the purchase of updated code books for Commonwealth personnel. The cost to enforce the proposed rulemaking will be the same as the current regulations. This proposed rulemaking will not increase administrative, enforcement or legal activity.

Reporting, Recordkeeping and Paperwork Requirements

This proposed rulemaking will not require the creation of new forms or reporting requirements. Current forms may be updated.

Sunset Date

A sunset date is not appropriate for this proposed rulemaking. The act directs the Department to update the regulations with each new International Code Council, or successor code, edition.

Effective Date

This proposed rulemaking will take effect upon final-form publication in the *Pennsylvania Bulletin*.

Contact Person

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Edward Leister, Director, Bureau of Occupational and Industrial Safety, Department of Labor and Industry, 16th Floor, Labor and Industry Building, 651 Boas Street, Harrisburg, PA 17120, eleister@pa.gov within 30 days of publication in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on March 23, 2012, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Committee on Labor and Industry and the House Labor Relations Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the

close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Secretary

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 61]

Fishing; Seasons, Sizes and Creel Limits

The Fish and Boat Commission (Commission) proposes to amend Chapter 61 (relating to seasons, sizes and creel limits). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

The proposed rulemaking, if approved on final-form rulemaking, will go into effect on January 1, 2013.

B. Contact Person

For further information on the proposed rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission’s web site at www.fish.state.pa.us.

C. Statutory Authority

The proposed amendment to § 61.8 (relating to Lehigh River, Schuylkill River and tributaries) is published under the statutory authority of section 2102(b) of the code (relating to rules and regulations).

D. Purpose and Background

The proposed rulemaking is designed to improve, enhance and update the Commission’s fishing regulations. The specific purpose of the proposed amendment is described in more detail under the summary of proposal.

E. Summary of Proposal

The Lehigh and Schuylkill Rivers represent the two largest tributaries to the Delaware River, draining 3,529.7 km² and 4,951.2 km², respectively. The annual numbers of American shad that migrate to both rivers is dependent upon successful passage at multiple fishways. The first of these fishways on the Lehigh River is

situated near the confluence with the Delaware River at the Easton Dam (RM 0.0). On the Schuylkill River, the first impediment to shad passage is the Fairmount Dam (RM 8.5). Multiple factors contribute to the successful passage of shad, such as adequate fishway attraction flows, river flow, river water temperature and abundance of the returning population. Shad passage varies annually as monitored at both fishways by surveillance cameras and passage efficiency is poor. For example, passage of shad monitored through the Chain Dam (RM 3.0) on the Lehigh River is typically less than 20% of Easton passage. Only 5.0% of the American shad that passed the Easton Dam passed the Chain Dam in 2011. Shad passage is not monitored on any upstream fishway on the Schuylkill River, with the exception of some monitoring in 2010 and 2011 by Normandeau Associates for Exelon Energy at the Black Rock Dam.

Both rivers have been the subject of long-term restoration efforts by the Commission. American shad fry resulting from fish culture at the Commission's Van Dyke Hatchery have been stocked in both the Lehigh and Schuylkill Rivers for many years. The long-term contribution of hatchery-stocked fish to the annual runs of American shad is 74% and 96% for the Lehigh River and Schuylkill River, respectively.

Since 1995 on the Lehigh River and 2005 on the Schuylkill River, the American shad season has been open year-round with a daily creel limit of one shad, with no minimum size on both rivers; however, the fishery is focused on the Delaware River mainstem. An estimate of angler use and harvest is not available for either the Lehigh or Schuylkill River. A few anglers have been noted to fish the tidal reach of the Schuylkill River.

Management of marine and diadromous fisheries in state waters on the Atlantic Coast is coordinated through the Atlantic States Marine Fisheries Commission (ASMFC). The adoption of Amendment 3 to the ASMFC Interstate Fishery Management Plan for Shad and River Herring in 2010 calls for a moratorium on commercial fisheries and a catch and release regulation for recre-

ational American shad fisheries that cannot be demonstrated to be sustainable by January 1, 2013. Given that both the Lehigh and Schuylkill Rivers remain under restoration, that there is currently inefficient fishway passage and that data that can demonstrate sustainability is currently inadequate, the Commission cannot determine that the fisheries are sustainable on either river. Therefore, the Commission proposes that § 61.8 be amended to read as set forth in Annex A to impose catch and release only regulations for American shad in both rivers.

F. Paperwork

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The proposed rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will not impose new costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/reg comments. DEPARTMENT OF EDUCATION

21st Century Community Learning Center 2012-13; Request for Proposals; Opening of the Online Application for Cohort 6A

The Department of Education (Department) announces the availability of the 21st Century Community Learning Center (21st CCLC) 2012-15 Request for Proposal (RFP) and the opening of the 2012-13 21st CCLC eGrants online application for Cohort 6A.

The 21st CCLC program is authorized under Title IV, Part B of the Elementary and Secondary Education Act (act) (Pub. L. No. 107-110), as amended by the No Child Left Behind Act of 2001. The 21st CCLC program provides Federal funding for the establishment of community learning centers that provide academic, artistic and cultural enrichment opportunities for children during non-school hours and may take place before school and after school, weekends, holidays and/or summer. The 21st CCLC program targets students who attend high-poverty and low-performing schools to provide them with aid in meeting State and local academic standards. Programs also offer literacy and other educational services to the families of participating children.

Grantees and all sites must provide academic enrichment activities to students attending high-poverty schools to help them meet State and local standards in core content areas, such as reading, math and science.

Pennsylvania's Funding Priorities

Five additional review points will be given to applications that:

- Include programs that target and give priority to middle schools students (6th grade through 8th grade) and who also:
 - Have previous experience and success in providing services to middle school students.
 - Propose offering services exclusively to students from eligible middle schools. Programs requesting priority to serve middle school may not serve elementary school students.
- Preference for funding will be given to qualified applicants offer credit recovery to high school students. A grantee may use 21st CCLC program funds for a before- or after-school program or activity for which participants may receive credit toward high school graduation requirements if: (1) a program or activity is an expansion of the options for receiving high school credit in a particular area that would not have been provided without the 21st CCLC program; and (2) the program or activity does not replace or reduce the courses and programs normally provided by a local school district or private school (that is, there is no reduction in the course offerings or costs in that particular academic area). <http://tinyurl.com/21CCreditRecovery>

Note: It is important to note that it is the responsibility of the local educational agency (LEA) to award the credit. There must be a letter of agreement between the LEA and the grantee clarifying the responsibility of recording the credits.

- Align the proposed afterschool programming with existing research-based programs that demonstrate effective utilization of Science, Technology, Engineering and

Mathematics (STEM). Raise the awareness and understanding of students about STEM activities by infusing STEM into expanded learning opportunities, after school and summer programming. Applicants proposing STEM services under Cohort 6A will be eligible for an increased annual technology cap based on the following sliding scale: 15% year 1; 10% year 2; and 5% year 3. <http://tinyurl.com/21cclcSTEM>

The Department requires program funds for Cohort 6A to be used to:

- Provide extended learning opportunities.
- Attend one National, one State grantee meeting and one regional training per year.
- Complete an external local level evaluation contracted through a third-party evaluator.

Use of 21st CCLC funds for a full time program coordinator is an allowable expense, but is not mandated.

Eligible Applicants and Funding Priorities

Federal law mandates, per section 4203(a)(3) of the act, "that any public or private organization may apply for 21st CCLC funding if it proposes to serve:

1. Students who primarily attend:
 - a. schools eligible for schoolwide programs under (Title I) Section 1114, or
 - b. schools that serve a high percentage of students (at least 40 percent) from low-income families; and
2. The families of those students described above."

The Department will give competitive priority to applications that both propose to serve students who attend schools identified for improvement (under section 1116 of Title I) and that are submitted jointly between at least one LEA receiving funds under Title I, Part A and at least one public or private community organization.

In determining whether an application has been "submitted jointly," the Department should look for:

- Evidence of collaboration in the planning and design of the program.
- Substantial roles in the delivery of services.
- Share grant resources to carry out those roles.
- Significant ongoing involvement in the management and oversight of the program.
- Grant writer and the fiscal agent.
- Evidence in the application of integration with the regular school day program.

Only one contract will be issued for each application selected for funding, even for joint proposals. Consequently, every joint application must identify only one organization to be designated as the grantee. That entity will have fiscal and contractual responsibility for carrying out the proposed program.

Eligible Participants

Eligible participants are public, private and nonpublic school students, both boys and girls, prekindergarten through 12th grade. Programs should target the ages and grades deemed to be at greatest risk and those students who are academically below proficiency. It is mandated that eligible entities collaborate with LEAs when applying for funds.

Application Requirements

The electronic application for new grants will be available at <http://egrants.ed.state.pa.us/> and will be due no later than noon on May 4, 2012.

Pre-Proposal Conferences

To assist eligible entities in completing the RFPs, the Department will be hosting a series of 21st CCLC pre-grant workshops (both online and onsite) on the following dates. Pre-grant workshops were held at the

following locations: Hershey Lodge and Convention Center (archived on Eduplanet web site); Appalachia Intermediate Unit No. 8; Allegheny Intermediate Unit No. 3; and Midwestern Intermediate Unit No. 4. Participation in a pregrant workshop is strongly encouraged for any eligible community based organization, school district or charter school planning to submit an RFP for the 21st CCLC competitive funds.

On-Site Pre-Grant Workshops: 9:30 a.m. to 12 p.m. unless specified otherwise.

No funds will be available for summer only applicants in this grant round.

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit

applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a

summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first.

Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. 15-00105: Buckeye Pipe Line Transportation LLC—Malvern Station (8 South Malin Road, Malvern, PA 19355) for renewal of Title V Operating Permit ("TVOP") No. 15-00105 in East Whiteland Township, **Chester County**. The facility's air emissions sources consist of eight internal floating roof, gasoline storage tanks (seven of which may also store petroleum distillates); three fixed roof, petroleum distillate storage tanks; and a sump tank. Storage tanks #1—#4 are subject to a combined volatile organic compound ("VOC") emission restriction of 5.9 tons/yr. The permittee has elected to restrict hazardous air pollutants ("HAPs") emissions from the facility to less than 10 tons/yr for any individual HAP, and less than 25 tons/yr for total HAPs, to avoid being subject to the requirements of 40 C.F.R. Part 63, Subpart R. The facility, as well as several of its storage tanks, are also subject to gasoline and/or petroleum distillate throughput restrictions (in any consecutive twelve (12)-month period), as follows:

- Facility: 1,000,000,000 gallons of gasoline
- Storage tank #1: 13,666,200 gallons of gasoline and 40,950,000 gallons of petroleum distillates (including ethanol)
- Storage tank #2: 13,666,200 gallons of gasoline and 40,950,000 gallons of petroleum distillates
- Storage tank #3: 12,180,000 gallons of gasoline and petroleum distillates (combined)

- Storage tank #4: 12,270,000 gallons of petroleum distillates
- Storage tank #106: 328,860,000 gallons of gasoline

Since the TVOP was last renewed in 2005, no physical changes have occurred at the facility (though storage tank #5 has been inactive for approximately 20 years and will not be listed as a source in the renewed TVOP). However, since this time, all of the gasoline storage tanks at the facility have become subject to the requirements of 40 C.F.R. Part 63, Subpart BBBBBB. All applicable requirements of this regulation will be included in the renewed TVOP.

The facility is not subject to the Compliance Assurance Monitoring ("CAM") requirements of 40 CFR Part 64.

The TVOP will continue to include all other monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated

with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT

limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*			
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) iden-

tified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality stan-

dards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as

provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Specific areas identified in the plan include: Woodshire Area, Norcross Area (East and West), Garries Road Area, Grubb Road Area, Wattsburg Road Area, Glenwood Interceptor Upsizing, and Pump Station upgrades for Glenwood, Love Road and Wolf Road. Average and peak flow rates tributary to Millcreek's sewer system from tributary municipalities, as well as average and peak flow rates at the main connection points into the City of Erie, and the hydraulic capacities of the major sewer conveyance system were also evaluated. Project detail will be submitted for each project when proposed. Projects will proceed when economically feasible and/or developer driven.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Public Notice of Proposed Consent Order and Agreement Department of Environmental Protection Yuhus Dump Site

Pocono Township, Monroe County

Under section 1113 of the Pennsylvania Hazardous Sites Cleanup Act, Act of October 18, 1988, P. L. 756, No. 108, 35 P. S. §§ 6020.101—6020.1305 (HSCA), notice is hereby provided that the Pennsylvania Department of Environmental Protection (Department) is proposing entering into a settlement in the form of a Consent Order and Agreement (CO&A) with Fromkin Brothers, Inc. (Fromkin). The CO&A addresses the investigation and removal of what the Department has determined to be hazardous substances and contaminants in the form of paint waste that was abandoned and disposed of at the Yuhus Dump Site (Site). Fromkin will reimburse the Department for costs incurred to perform the site investigation/response activities at the Site.

The Site is a residential parcel, approximately 5.06 acres in size, located at RR 1, Box 119, Sullivan Trail Road, Scotrun, PA. Dry Sawmill Run, a high quality cold-water stream, runs through the Site and is abutted on one side by a large construction and demolition (C&D)

waste pile that spans the width of the Site. On the other side of the stream, to the west of Dry Sawmill Run, numerous containers of paint waste of various sizes, including 1 gallon, 5 gallon and 55 gallon containers, were abandoned and disposed of at the Site. Additional paint waste was found in a garage in the abandoned residence at the Site.

The Department determined that paint waste disposed of and abandoned at the Site originated from Fromkin. The Department further determined, based on the observations of its personnel, that the abandonment and disposal of the waste caused a release and further threat of release of hazardous substances and/or contaminants at the Site and that a Prompt Interim Response was needed. The Department initiated a prompt interim response action under the HSCA on October 13, 2008. The objective of this prompt interim response action was to eliminate a threat to human health, safety and the environment posed by hazardous substances and/or contaminants that were present at the Site.

As part of a Phase I Prompt Interim Response, the Department conducted a removal action involving sampling and characterization of abandoned paint waste and soil; collection and containment of paint and containers; and proper transportation and disposal of paint waste, containers and soil. The response was completed on November 24, 2008.

In this proposed CO&A, Fromkin is agreeing to reimburse the Department \$53,567.00 for response costs the Department has incurred arising out of the investigation and removal of the paint waste disposed of at the Site that the Department determined originated from Fromkin. The CO&A resolves Fromkin's liability for waste located at the Site attributed to Fromkin, and any impacts from such waste to soil, groundwater and other media. The Department has determined that the proposed settlement is fair, reasonable and in the public interest.

The specific terms of the settlement are set forth in the proposed CO&A between the Department and Fromkin, which is available for public review and comment. The Department will receive and consider comments relating to the CO&A for sixty (60) days from the date of this Public Notice. The Department has the right to withdraw its consent to the CO&A if the comments concerning the CO&A disclose facts or considerations which indicate that the CO&A is inappropriate, improper, or not in the public interest. After the public comment period, the Department's settlement with Fromkin shall be effective upon the date that the Department notifies the Fromkin, in writing, that the CO&A is final and effective in its present form, and that the Department has filed a response to significant written comments to the CO&A, or that no such comments were received.

Copies of the CO&A are available for inspection at the following locations:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to

the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

SPECIAL NOTICES

Request for Comments on the Proposed Total Maximum Daily Loads (TMDLs) Developed for the Wolf Run Watershed in Lycoming County, Pennsylvania

The Department of Environmental Protection will accept comments on the proposed TMDLs developed for the Wolf Run Watershed in Lycoming County, PA. These TMDLs were established in accordance with the requirements of Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included impaired stream segments in this watershed. The listings of these waterbodies were due to use impairments caused by excessive siltation.

There currently are no state or federal instream numerical water quality criteria for siltation. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. These proposed TMDLs set allowable loadings of sediment in the Wolf Run Watershed. The sediment loading was allocated among cropland, hay/pasture land, transitional land and streambank categories present in the watershed. Data used in establishing these TMDLs was generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University.

The following table shows the estimated current sediment loading for the watershed. Overall load reductions necessary in order to meet the TMDLs are also identified.

Summary of TMDL Based Load Reductions in the Wolf Run Watershed

<i>Pollutant</i>	<i>Existing Load (lbs./yr.)</i>	<i>Existing Load (lbs./day)</i>	<i>TMDL (lbs./yr.)</i>	<i>TMDL (lbs./day)</i>	<i>Percent Reduction</i>
Sediment	2,116,200	5,798	1,885,261	5,165	13%

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDLs and information on the TMDL program can be viewed on the Department's website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To request a copy of any of the proposed TMDLs contact Sean Kilmartin, Civil Engineer Hydraulic, Watershed Quality Standards Division, Central Office, Department of Environmental Protection, Rachel Carson State Office Building, Harrisburg, PA 17105, 717-783-2958, sekilmarti@pa.gov.

The Department will consider all comments in developing the final TMDLs, which will be submitted to EPA for approval. Written comments will be accepted at the above address and must be postmarked by 45 days after publication in the PA bulletin. A public meeting to discuss the technical merits of the TMDL will be held upon request.

2012 Draft Integrated Water Quality Monitoring and Assessment Report; Notice of Availability for Public Comment

The Department of Environmental Protection (Department) is providing for public comment on its draft 2012 Integrated Water Quality Monitoring and Assessment Report (Integrated Report). The Integrated Report includes both a narrative description of this Commonwealth's water quality management programs (formerly the 305(b) Report) and various lists depicting the status of Commonwealth surface waters as required under section 303(d) of the Federal Clean Water Act (33 U.S.C.A. § 1313). The Integrated Report is comprised of four parts and also includes a five-part list that collectively summarizes the designated use attainment status of Commonwealth surface waters.

Section 303(d) of the Federal Clean Water Act and 40 CFR Part 130 (relating to water quality planning and management) require states to identify waters which

would still be impaired, even after the appropriate technology has been applied to point sources and requires best management practices are in place for nonpoint sources. Waterbodies that do not meet water quality standards after this evaluation are placed on Category 5 of the Integrated Waterbody List.

For each waterbody in Category 5, the Department or the United States Environmental Protection Agency must develop Total Maximum Daily Load (TMDL) allocations. A TMDL is a calculation of the assimilative capacity of a waterbody to handle point and nonpoint pollutant loads without violating water quality standards. TMDLs also describe the conditions necessary to improve water quality. TMDLs are used to set limits in National Pollution Discharge Elimination System water quality permits and identify where best management practices for nonpoint sources are necessary to improve and protect water quality. When a TMDL is approved for a waterbody, that waterbody listing is moved to Category 4a.

Waterbody assessment and compilation of the Integrated Report is an ongoing process. The Department will continue to verify the quality of data used in this process and, as needed, will publish supplements to the Integrated Report for public review and comment.

The draft 2012 Integrated Report is available on the Department's web site at www.dep.state.pa.us, select "Water," select "The Bureau of Water Standards and Facility Regulation," from right hand column select "Water Quality Standards," and finally "2012 Integrated List Draft." The full address is: http://www.portal.state.pa.us/portal/server.pt/community/water_quality_standards/10556.

The Department invites public comments on the draft Integrated Report. The Department must receive comments on the draft Integrated Report by May 22, 2012. Written comments should be submitted to Molly Pulket, Division of Water Quality Standards, Bureau of Point and Non-Point Source Management, P. O. Box 8774, Harrisburg, PA 17105-8467, mpulket@pa.gov. Comments received by facsimile will not be accepted.

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Molly Pulket directly at (717) 783-2949 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TTD) to discuss how the Department may accommodate their needs.

Rescheduling of Controlled Substance: Clobazam from Schedule I to Schedule IV Classification

The Department of Health (Department) provides notice that the Secretary of Health (Secretary), with the authorization of the Pennsylvania Drug, Device and Cosmetic Board (Board), has acted to reclassify the controlled substance clobazam from a Schedule I controlled substance to a Schedule IV controlled substance under The Controlled Substance, Drug, Device and Cosmetic Act (35 P. S. §§ 780-101—780-144) (act). The Secretary took this action on March 27, 2012, under section 3(c) of the act (35 P. S. § 780-103(c)) (relating to authority to control). The reclassification was effective immediately upon the Secretary's action.

Background

The Department learned on March 26, 2012, that the United States Food and Drug Administration (FDA) recently had approved the drug Onfi™ (chemical name: clobazam) for the treatment of a rare but severe form of epilepsy in adults and in children 2 years of age and older. Under Federal law, clobazam is a Schedule IV controlled substance and, therefore, may be properly prescribed for appropriate medical treatments.

In the Commonwealth, by contrast, clobazam had been a Schedule I controlled substance under 28 Pa. Code § 25.72 (relating to schedules of controlled substances). See 28 Pa. Code § 25.72(b)(6)(vi) (relating to Schedule I). Clobazam had been listed as a Schedule I controlled substance under Department regulations since 1986. Thus, under Commonwealth law, until the Secretary acted to reclassify it, clobazam had been illegal to possess, administer, dispense, prescribe or distribute.

At the time that the Department originally classified clobazam as a Schedule I controlled substance in 1986, it met State law criteria for that classification in the act and implementing Department regulations, 28 Pa. Code Chapter 25 (relating to controlled substances, drugs, devices, and cosmetics). Under section 4(1) of the act (35 P. S. § 780-104(1)) (relating to schedules of controlled substances—Schedule I) and 28 Pa. Code § 25.72(b), the factors to determine whether a substance is classified as a Schedule I controlled substance are the following:

1. A high potential for abuse.
2. No currently accepted medical use in the United States.
3. A lack of accepted safety for use under medical supervision.

Under section 4(4) of the act (35 P. S. § 780-104(4)) (relating to Schedule IV) and 28 Pa. Code § 25.72(e) (relating to Schedule IV), the factors to determine whether a substance is classified as a Schedule IV controlled substance are as follows:

1. A low potential for abuse relative to the substances listed in Schedule III.
2. Currently accepted medical use in the United States.
3. Limited physical or psychological dependence liability relative to the substances listed in Schedule III.

With the recent FDA action approving Onfi™ (chemical name: clobazam) for the treatment of epilepsy with a Schedule IV classification at the Federal level, clobazam now has an accepted medical use; and it is accepted for safe use under medical supervision.

Legal Authority and Action

Under section 3(c) of the act (35 P. S. § 780-103(c)), the Secretary is authorized to reschedule any controlled substance when specifically authorized by the Board. The Board is established by section 31 of the act as a departmental administrative board of the Department and is chaired by the Secretary. See 35 P. S. § 780-131 (relating to board creation).

When the Department learned of the action of the FDA to approve the use of Onfi™ (chemical name: clobazam) to treat certain forms of epilepsy, the Secretary acted as chair to convene an emergency meeting of the Board on March 27, 2012. The purpose of the emergency meeting was to determine whether, in consideration of the FDA's action regarding Onfi™ (chemical name: clobazam), clobazam should be rescheduled under Commonwealth law as a Schedule IV controlled substance, instead of a Schedule I controlled substance.

At the emergency meeting of the Board, a motion to reschedule Onfi™ (chemical name: clobazam) as a Schedule IV controlled substance was presented by board member Joan B. Tarloff, Ph.D. (Pharmacist on the Board), Professor and Interim Chair, Department of Pharmaceutical Sciences, Philadelphia College of Pharmacy, University of the Sciences. The Secretary of Health, Eli N. Avila, seconded the motion. The Board proceeded to vote unanimously to authorize the rescheduling of clobazam as a Schedule IV controlled substance. The Secretary then acted immediately under section 103(c) of the act to effect the rescheduling.

To revise 28 Pa. Code § 25.72 to conform to the action taken by the Secretary under section 103(c) of the act to reschedule clobazam as a Schedule IV controlled substance, the Department plans to promulgate a conforming amendment to 28 Pa. Code § 25.72 through final rulemaking with proposed rulemaking omitted.

Updating the List of Citations to ACIP Recommendations Prescribing Child Immunization Practices and Immunizing Agents and Doses

In accordance with 31 Pa. Code §§ 89.806(a) and 89.807(b) (relating to coverage of child immunizations; and immunizing agents, doses and AWP), the Department of Health (Department), Bureau of Communicable Diseases, Division of Immunization is updating 31 Pa. Code Chapter 89, Appendices G and H (relating to ACIP recommendations prescribing child immunization practices; and immunizing agents and doses). The Department has primary responsibility for the interpretation

and the implementation of 31 Pa. Code §§ 89.806 and 89.807. See 31 Pa. Code § 89.801(b) (relating to authority and purpose; implementation).

Health insurance policies are required by the Childhood Immunization Insurance Act (act) (40 P.S. §§ 3501—3508) and regulations promulgated thereunder, 31 Pa. Code Chapter 89, Subchapter L (relating to childhood immunization insurance) to include coverage for certain childhood immunizations, unless the policies are exempted by the act and 31 Pa. Code § 89.809 (relating to exempt policies). The childhood immunizations covered are those that meet Advisory Committee on Immunization Practices (ACIP) standards in effect on May 21, 1992. See 31 Pa. Code § 89.806(a). A list of the Morbidity and Mortality Weekly Report (MMWR) publications containing ACIP recommendations issued under the ACIP standards in effect on May 21, 1992, appears in 31 Pa. Code Chapter 89, Appendix G.

The Department is required to update the list of these MMWR publications appearing in 31 Pa. Code Chapter 89, Appendix G. See 31 Pa. Code § 89.806(a). The additions to the list are as follows, the remainder of the list at 31 Pa. Code Chapter 89, Appendix G remains in full force and effect:

Licensure of a Meningococcal Conjugate Vaccine for Children Aged 2 Through 10 Years and Updated Booster Dose Guidance for Adolescents and Other Persons at Increased Risk for Meningococcal Disease—Advisory Committee on Immunization Practices (ACIP), 2011

In January 2011, the Food and Drug Administration lowered the approval age range for use of MenACWY-CRM (Menveo, Novartis Vaccines and Diagnostics), a quadrivalent meningococcal conjugate vaccine, to include persons aged 2 through 55 years. One other quadrivalent meningococcal conjugate vaccine, meningococcal conjugate vaccine (MenACWY-D) (Menactra, Sanofi Pasteur), is licensed in the United States for prevention of meningococcal disease caused by serogroups A, C, Y, and W-135 among persons aged 2 through 55 years; MenACWY-D also is licensed as a 2-dose series for children aged 9 through 23 months. The Advisory Committee on Immunization Practices (ACIP) recommends that persons aged 2 through 55 years at increased risk for meningococcal disease and all adolescents aged 11 through 18 years be immunized with meningococcal conjugate vaccine. ACIP further recommended, in January 2011, that all adolescents receive a booster dose of quadrivalent meningococcal conjugate vaccine at age 16 years. The article summarizes data supporting the extended age indication for MenACWY-CRM and the interchangeability of the two licensed meningococcal conjugate vaccines.

National and State Vaccination Coverage Among Adolescents Aged 13 Through 17 Years—United States, 2010

The Advisory Committee on Immunization Practices (ACIP) recommends that adolescents routinely receive meningococcal conjugate (MenACWY, 2 doses); tetanus, diphtheria, acellular pertussis (Tdap, 1 dose); and human papillomavirus (HPV, 3 doses) vaccines (influenza vaccine is recommended annually for all persons aged 6 months and older). Center for Disease Control (CDC) tracks vaccination coverage among adolescents aged 13 through 17 years through the National Immunization Survey-Teen (NIS-Teen). To provide updated vaccination coverage estimates, CDC analyzed 2010 NIS-Teen data and compared

results with 2009 NIS-Teen estimates. The article summarizes the results of that analysis, which found that coverage increased for all three of the routinely administered adolescent vaccines: Tdap from 55.6% to 68.7%, MenACWY from 53.6% to 62.7%, (among females) ≥ 1 dose of HPV from 44.3% to 48.7%, and ≥ 3 doses of HPV from 26.7% to 32.0%. Vaccination coverage varied widely among states; three states (Massachusetts, Rhode Island and Washington) had coverage of $>65\%$ for ≥ 1 dose of all three vaccines (Tdap, MenACWY and HPV). Continued evaluation of vaccination-promoting initiatives, including state vaccination-financing policies, is needed to understand their impact on adolescent vaccination and to promote effective practices.

National and State Vaccination Coverage Among Children Aged 19-35 Months—United States, 2010

The National Immunization Survey (NIS) monitors vaccination coverage among children aged 19-35 months using a random-digit-dialed sample of telephone numbers of households to evaluate childhood immunization programs in the United States. The article describes the 2010 NIS coverage estimates for children born during January 2007-July 2009. Nationally, vaccination coverage increased in 2010 compared with 2009 for ≥ 1 dose of measles, mumps, and rubella vaccine (MMR), from 90.0% to 91.5%; ≥ 4 doses of pneumococcal conjugate vaccine (PCV), from 80.4% to 83.3%; the birth dose of hepatitis B vaccine (HepB), from 60.8% to 64.1%; ≥ 2 doses of hepatitis A vaccine (HepA), from 46.6% to 49.7%; rotavirus vaccine, from 43.9% to 59.2%; and the full series of *Haemophilus influenzae* type b (Hib) vaccine, from 54.8% to 66.8%. Coverage for poliovirus vaccine (93.3%), MMR (91.5%), ≥ 3 doses HepB (91.8%), and varicella vaccine (90.4%) continued to be at or above the national health objective targets of 90% for these vaccines. The percentage of children who had not received any vaccinations remained low ($<1\%$). For most vaccines, no disparities by racial/ethnic group were observed, with coverage for other racial/ethnic groups in 2010 similar to or higher than coverage among white children. However, disparities by poverty status still exist. Maintaining high vaccination coverage levels is important to reduce the burden of vaccine-preventable diseases and prevent a resurgence of these diseases in the United States, particularly in under vaccinated populations.

Recommendation of the Advisory Committee on Immunization Practices (ACIP) for Use of Quadrivalent Meningococcal Conjugate Vaccine (MenACWY-D) Among Children Aged 9 Through 23 Months at Increased Risk for Invasive Meningococcal Disease

In April 2011, the Food and Drug Administration approved the use of a quadrivalent meningococcal conjugate vaccine (MenACWY-D) (Menactra, Sanofi Pasteur) as a 2-dose primary series among children aged 9 through 23 months. Vaccination with meningococcal polysaccharide vaccine is not recommended for children aged <2 years because of low immunogenicity and short duration of protection in this age group.

The Advisory Committee on Immunization Practices (ACIP) Meningococcal Vaccine Work Group reviewed data from four clinical studies on the safety and immunogenicity of MenACWY-D in healthy children aged 9 through 23 months. The pivotal immunogenicity study was a Phase III, multicenter, U.S. trial measuring seroresponse 30 days after 2 doses of MenACWY-D. Antibody titers were

measured using a serum bactericidal assay containing human complement (hSBA). Seroreponse was defined as the proportion of subjects with hSBA titers of $\geq 1:8$, the accepted measure of protection. The first dose of MenACWY-D was administered alone at age 9 months, followed by a second dose administered alone ($n = 404$) or concomitantly with measles, mumps, rubella, and varicella vaccine ($n = 302$) or 7-valent pneumococcal conjugate vaccine (PCV7) ($n = 422$) at age 12 months. The percentage of subjects with hSBA titers $\geq 1:8$ was $>90\%$ for all meningococcal serogroups except serogroup W135 ($>80\%$).

Immune responses to childhood vaccines recommended by ACIP at age 12 months, administered concomitantly with MenACWY-D, were evaluated in a separate randomized, multicenter, U.S. trial. After coadministration of MenACWY-D and PCV7, lower geometric mean concentrations (GMCs) of antipneumococcal immunoglobulin G (IgG) were observed compared with corresponding IgG GMCs when PCV7 was administered without MenACWY-D. The noninferiority criteria (twofold differences in IgG GMCs) for the prespecified pneumococcal endpoints were not met for serotypes 4, 6B, and 18C. However, the IgG antibody responses to the seven pneumococcal vaccine serotypes were still robust. For an individual, the clinical relevance of decreased pneumococcal antibody responses to three of seven vaccine serotypes is not known. No data are available on the immune responses to coadministered MenACWY-D and a CRM197-based 13-valent pneumococcal conjugate vaccine. The most common solicited adverse events for MenACWY-D included injection site tenderness and irritability; no serious adverse events were attributed to MenACWY-D.

Invasive Pneumococcal Disease and 13-Valent Pneumococcal Conjugate Vaccine (PCV13) Coverage Among Children Aged ≤ 59 Months—Selected United States Regions, 2010-2011

On March 12, 2010, the Advisory Committee on Immunization Practices (ACIP) published recommendations for use of a newly licensed, 13-valent pneumococcal conjugate vaccine (PCV13) to replace the 7-valent vaccine (PCV7) for all children and for a supplemental dose for those aged 14 through 59 months. PCV is given routinely to children at ages 2, 4 and 6 months, and a booster dose is given at 12-15 months. PCV13 includes antigens of six pneumococcal serotypes in addition to those in PCV7. Children only vaccinated with PCV7 are susceptible to those six serotypes, which can cause invasive pneumococcal disease (IPD) and death. During 2010 and 2011, CDC evaluated available data to assess the occurrence of PCV13-type IPD cases and PCV13 vaccination coverage among children aged ≤ 59 months. During May 1, 2010-April 30, 2011, 63 vaccine-eligible children with IPD caused by a serotype that would have been prevented by PCV13 were identified within 12 study regions. Most of those children were aged 24 through 59 months and were vaccinated completely with PCV7 but had not received the recommended supplemental dose of PCV13. Immunization Information System (IIS) sentinel site data from March 2010-June 2011 indicated that the proportion of PCV7-vaccinated children who had received the PCV13 supplemental dose was only 37%. Similarly, among children aged ≤ 59 months requiring additional primary series doses, PCV13 coverage was only 46%. Given the potential for missed PCV13 vaccination, health-care providers should recommend PCV13 vaccination for all eligible children aged 14 through 59 months during all

visits, and continue to ensure receipt of the full PCV13 primary series for younger children.

In June 2011, a girl in California, aged 2 years, died of IPD caused by serotype 19A, one of six serotypes included in PCV13 but not in PCV7. The child had received 3 doses of PCV7 but had not received PCV13. The California Department of Public Health identified an additional 30 PCV13-eligible children who had developed nonfatal IPD caused by the pneumococcal serotypes not covered by PCV7 and who became ill after PCV13 was recommended by ACIP. In August 2011, a health advisory was sent to California health-care providers to remind them of ACIP's recommendation for PCV13 use. To determine if other areas of the country were identifying cases of PCV13-type IPD among children eligible to receive PCV13 and to assess PCV13 vaccination coverage among children aged ≤ 59 months, CDC assessed data from 12 geographic regions participating in its ongoing PCV13 Vaccine Effectiveness Evaluation and from eight IIS sentinel sites.

INDEPENDENT REGULATORY REVIEW COMMISSION

Action Taken by the Commission

The Independent Regulatory Review Commission met publicly at 10 a.m., Thursday, March 15, 2012, and announced the following:

Action Taken—Regulation Disapproved

Pennsylvania Public Utility Commission #57-273:
Default Service Regulations

Disapproval Order

Public Meeting Held

Commissioners Voting: Silvan B. Lutkewitte, III, Chairperson; George D. Bedwick, Vice Chairperson; Arthur Coccodrilli, Abstained; John F. Mizner, Esq.; Lawrence J. Tabas, Esq.

*Pennsylvania Public Utility Commission—
Default Service Regulations
Regulation No. 57-273 (#2837)*

On April 15, 2010, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking amends 52 Pa. Code Chapter 54. The proposed regulation was published in the May 1, 2010 *Pennsylvania Bulletin* with a 45-day public comment period. The final-form regulation was submitted to the Commission on January 27, 2012.

This final-form rulemaking aligns the PUC's existing default service regulations with Act 129 of 2008 (Act 129). Act 129 had several key elements, including changes to the way electric distribution companies serving as the default service provider (DSP) for non-shopping customers (or alternative PUC-approved DSPs) purchase electricity for sale to non-shopping customers. Under the original deregulation law, the Electric Generation Customer Choice and Competition Act of 1996, DSPs were required to purchase the electricity at "prevailing market prices." (See former 66 Pa.C.S. § 2807(e)(3).) Act 129 repealed that standard and now requires the purchases to be designed to ensure adequate and reliable service at the "least cost to customers over time."

The PUC has noted that the rulemaking generally incorporates Act 129 procurement requirements verbatim. When the proposed rulemaking was published, the PUC

sought comment on 16 questions pertaining to how Act 129 should be interpreted “to ensure adequate and reliable service at the least cost to customers over time, and on how the proposed regulations should be revised to reflect the interpretation recommended by the person filing the comments.”

Our comments expressed concern with the approach taken by PUC for the promulgation of the rulemaking and questioned the need for the regulation in this form and at this time. We recommended that the PUC withdraw the proposed rulemaking, evaluate the feedback provided by the regulated community on the 16 questions, and draft a new proposed regulation that does more than recite the Act 129 revisions, especially as the PUC has acknowledged that the statute is subject to interpretation. There have been no substantive changes made to the final-form version of the rulemaking.

The PUC reported to the Commission that in April of 2011, the PUC launched an investigation into Pennsylvania’s competitive electricity retail market. It is our understanding that part of the investigation will focus on “end state default service models.”

Since the PUC is still in the process of determining how the procurement provisions of Act 129 as they relate to default service should be interpreted and applied, and as

the final-form regulation largely reiterates language from the statute without providing a clear interpretation of the statute, we question whether the regulation is premature or needed at this time. (71 P. S. § 745.5b(b)(3)(iii)). We do not believe the PUC has adequately demonstrated that the rulemaking is in the public interest prior to the completion of its investigation and submission of a clearly defined standard of interpretation of Act 129’s requirements.

We have determined this regulation is consistent with the statutory authority of the PUC (66 Pa.C.S. §§ 501 and 2807) and the intention of the General Assembly. However, we have determined that the regulation does not meet the criterion of need under the Regulatory Review Act as discussed above and find promulgation of this regulation is not in the public interest.

By Order of the Commission:

The regulation #57-273 (IRRC #2837) from the Pennsylvania Public Utility Commission was disapproved on March 15, 2012.

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agencies must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Environmental Quality Board Regulation #7-466 (IRRC #2927) Dam Safety and Waterway Management Fees March 28, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the January 28, 2012 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. General.—Consistency with statute; Economic impact; Reasonableness; Clarity.

Reasonable fees

The Dam Safety and Encroachments Act (Act) charges the EQB, in part, with protecting the public safety through the regulation of dams, reservoirs, water obstructions and water encroachments. 32 P. S. § 693.2. Relating

to fees, the EQB has the power to adopt regulations establishing “reasonable fees for the processing of applications and periodic inspections, for the purpose of reimbursing the Commonwealth for the costs of administration of this act.” 32 P. S. § 693.5(a)(5).

In Regulatory Analysis Form (RAF) Questions 12, 13 and 14, the EQB provides a breakdown of the fee impact by program, which we summarize as follows:

- **Dam Safety Program:** The proposed regulation would increase the annual revenue from \$28,000 in existing fees to \$1,139,850 in new fees, an increase of \$1,111,850.
- **Water Obstruction and Encroachment Program:** The proposed regulation would increase the annual revenue from \$47,850 in existing fees to \$2,952,612 in new fees, an increase of \$2,904,762.
- **Submerged Lands License Agreement Program:** The proposed regulation would increase the annual revenue from \$391,000 in existing fees to \$1,564,000 in new fees, an increase of \$1,173,000.

Overall, existing fees generate about \$467,000 and the new fees would generate about \$5.6 million. The EQB would receive an increase of \$5 million to cover the costs to administer the Act, and the regulated community would incur increased costs of the same amount. In comparison, the response to RAF Question 17a shows that expenditures for programs affected by the regulation are expected to total about \$106 million for fiscal year 2011-2012.

Under existing regulation, Subsection 105.13(b) specifies a fee exemption for "applications submitted by Federal, State, county or municipal agencies or a municipal authority for a dam, water obstruction or encroachment." The proposed regulation amends this exemption. It exempts fees for Federal and State agencies for dams and Federal, State, county and municipal agencies and authorities related to water obstruction and encroachment. We note that the proposed regulation does not exempt county and municipal agencies and authorities related to dams. However, in the Preamble, the EQB states it will add them to the exemption in the final-form regulation.

Commentators believe the distribution of fees is not equitable. They note that dam safety work is not optional and the Dam Safety Program oversees the regulation and safety of approximately 3,300 dams throughout Pennsylvania. The commentators state that there are 930 dams owned by state, county or municipal entities and 1,749 category C-4 dams (Category C dams have impoundment storage of equal to or less than 100 acre feet, and a height of equal to or less than 40 feet; Category 4 dams have no expected population at risk, and economic loss is expected to be minimal to private or public property and cause no significant public inconvenience). However, virtually all of the fees are assessed on only the 645 privately-owned dams. Consequently, a disproportionate share of the program costs is paid by private dam owners. They ask that fees be applied to all categories of dam owners equally, including fees for review of dam permit applications.

We believe these commentators make a valid point relating to the Act. The Act states that the EQB has the power to adopt regulations establishing "reasonable fees for the processing of applications and periodic inspections, for the purpose of reimbursing the Commonwealth for the costs of administration of this act." 32 P. S. § 693.5(a)(5).

We emphasize three points relating to the proposed regulation. First, the regulation imposes significant fee increases of more than \$5 million which, overall, amounts to a 12-fold increase over existing fees and revenues. Some fee categories are being increased by more than 12-fold. Second, RAF Question 20 asks what regulatory alternatives have been considered and rejected and requests a statement that the least burdensome alternative has been selected. The EQB responds, in part, that "no alternatives have been considered and/or rejected." Finally, as one example, the fees specified in the regulation are applied to only about 20% of dam owners. Given that the programs cover all dams, it is not clear how the exemptions and application of fees meet the Act's provision for "reasonable fees."

While we recognize that fees have not been increased since 1991, given the magnitude of the fee increases and the limitations on what portions of the regulated community pay the fees, we believe that exploration of alternatives is warranted, particularly in regard to the entities that pay the fees. The EQB should explain how all of the fees in the final regulation meet the statutory provision for "reasonable fees for the processing of applications and

periodic inspections, for the purpose of reimbursing the Commonwealth for the costs of administration of this act."

Calculation of fees

The EQB provided a "FEE REPORT FORM" dated October 2010 with the proposed regulation. The form includes a "Proposed Revised Dam Safety Fee Schedule" showing, for example, that the fee for "Permit Application—New Dam—Class A, Hazard 1" should be increased from \$3,000 to \$26,500. While the form establishes that current fees do not cover costs and provides a narrative describing examples of reviews, it does not provide clear support or a direct correlation of the specific hours and costs of these activities to administer the Act and the basis for the actual fee increases that are being implemented. Using the above example, what is the basis for the calculation of the fee of \$26,500? Without providing the basis for the calculation of all proposed fees, it is not clear how the EQB determined that it is reasonable for fees to offset approximately 35% of the costs of the Dam Safety Program and 31% of the costs of the Water Obstruction and Encroachment Program, as well as 53% of the cost of conducting permit reviews for the Water Obstruction and Encroachment Program. For the final-form regulation, the EQB should provide calculations showing how the specific fee increases it proposes correlate to the costs and activities required to administer the Act.

Exemptions

In the Preamble to the proposed regulation, the EQB states that the final-form rulemaking will include counties and municipalities within the Dam Safety Program's fee exemption in Paragraph 105.13(a)(1). We are concerned that the public, legislature and this commission were not given an opportunity to comment on the proposed language. In addition, the EQB should clarify whether the data provided as the basis for the proposed fees included counties and municipalities in the calculation of the fees and what impact that would have on the proposed fees.

Cost reductions

Commentators noted three things that may reduce costs that we ask the EQB to address. First, commentators state there is a duplication of inspection efforts by licensed professionals and Dam Safety Program personnel. They state that eliminating this duplication could result in lower fees. We recommend that where it is consistent with the Act and feasible to do so, the regulation should allow the acceptance of valid inspections performed by private licensed professionals if the goals of the inspections are consistent.

Second, a commentator believes that updating and developing new general permits would improve efficiency without compromising public safety. Has the EQB done a review of the program to improve efficiency before imposing additional fees?

Finally, a commentator recommended using additional fee revenue to expedite the development of an electronic permitting process. Has the EQB considered using technology such as an electronic permitting process to reduce program costs?

The EQB should consider these suggestions and explain why they were or were not adopted before imposing fee increases.

State Conservation Commission and its county conservation districts

The State Conservation Commission (SCC) submitted comments reflecting comments it received from 25 county conservation districts. The SCC comments raise concerns with what it describes as excessive fees, issues related to implementation of the fees, services provided by county conservation districts, whether county conservation districts will receive part of the fees and delegation agreements. We will review the EQB's responses to all of the SCC comments as part of our review of the final-form regulation. We also ask the EQB to explain how the regulation will impact county conservation districts, what services they provide related to the programs the fees will support and whether the revenues received as a result of this regulation will be shared with the county conservation districts.

Advanced Notice of Final-Form Rulemaking

In the Preamble, the EQB expressly seeks input regarding modifying the proposed rule to incorporate flexibility in the water obstructions and encroachments fee proposal to accommodate multiple structures in one project. We recognize this phrasing is used in existing Subsection 105.13(c); however, it is not clear what modifications the EQB contemplates.

Additionally, as noted previously, the EQB states in the Preamble that the final-form rulemaking will include counties and municipalities within the Dam Safety Program's fee exemption in Paragraph 105.13(a)(1). We question why the EQB chose to state this information in the Preamble rather than include it in the body of the proposed rulemaking.

In order to give the regulated community and other interested parties an opportunity to provide input on any revisions made by the EQB related to these two issues, we recommend that the EQB publish an Advanced Notice of Final Rulemaking (ANFR). An ANFR would provide the opportunity to review and resolve remaining issues before submittal of a final-form regulation.

2. Section 105.13. Regulated activities—information and fees.—Economic impact; Reasonableness; Clarity.

Impact on dredgers

Commentators who represent dredging operations provided calculations demonstrating that application of the fees to their operations could result in permit fees of \$1.4 million for a single permit and the disturbance fee could cost over \$48 million for their operations. Fees of this magnitude would be unaffordable to them. We agree with the commentators that it does not appear this was the EQB's intent within the context of an overall estimated fee increase of \$5 million. Did the EQB intend for the proposed rulemaking to apply to dredgers? If so, the EQB should explain in the Preamble of the final-form regulation how it considered the economic impact on this industry, and how it found that impact to be reasonable. If not, the regulation should specifically provide a clarification that the fees do not apply to dredging operations.

Inconsistent language

The regulated activities listed under Subsection (a) do not appear to be consistent with the language in the fee descriptors listed under Subsection (c). For example, Subsection (a) includes a "registration for a general permit" but we do not see any reference to a "registration for a general permit" under Subsection (c). These subsections

should be consistent in describing the regulated activities in the final-form regulation.

Clean Water Fund

The EQB states in Subsection (b) that fees collected by the Dam Safety Program and Water Obstruction and Encroachment Program will be deposited into the Clean Water Fund and utilized to offset the operating costs to implement respective programs. A commentator suggests that any fees and penalties associated with Chapter 105 be accounted for separately from other monies that go into the Clean Water Fund. The EQB should explain how it can ensure that the funds collected through Chapter 105 will be used only for the benefit of the Water Obstruction and Encroachment Program, Submerged Lands License Agreement Program and the Dam Safety Program to offset the costs of these respective programs.

Application of fees

Commentators have indicated the proposed rulemaking lacks clarity in regard to the application of fees as stated in Paragraph (c)(2). For example:

- Did the EQB intend for a general permit applicant to pay the Administrative Filing Fee, the Disturbance Fee and appropriate General Permits Fee?
- When would the proposed \$500 fee for Environmental Assessment for Waived Activities apply?
- To which permits would the \$1,750 Administrative Filing fee apply?
- Does the Disturbance Review Fee only apply to GP 11 and GP 15? Is it only for full Water Obstruction and Encroachment permits?
- Will applicants be required to obtain an approved Erosion and Sediment Control Plan and pay the associated fees in addition to the proposed permit fees?
- Dam rehabilitations may involve the need to provide additional hydraulic spillway capacity. With large dam rehabilitation designs, a hydrologic and hydraulic review by the Department of Environmental Protection is usually required very early in the design process. How will this staged review approach be handled in accordance with the new fees?
- By referencing fees established under Section 105.13, is Paragraph 105.444(5) limiting fees for new general permits because those new permits are not specifically listed in Paragraph 105.13(c)(2)?

We recommend that the EQB clearly establish the applicability of fees in the final-form regulation in response to all public comments.

"Waived activities," "major amendment" and "minor amendment"

Under Paragraph (c)(2), the EQB should define the "waived activities" which are subject to the Environmental Assessment for Waived Activities. The EQB should also define what qualifies as a major or minor amendment as it did under Clauses (c)(1)(iv)(B) and (C) in defining major and minor projects. A commentator states that the implication that major amendments include temporary and/or permanent impacts, while minor amendments do not, should be explicit in this section.

Evaluation of fees

Subsection (l) states that the Department's report regarding the adequacy of fees "will contain recommendations to increase fees to eliminate the disparity..." (Emphasis added.) As written, the regulation precludes

the possibility of a finding that fees could be more than adequate and should be reduced. We recommend amending this provision to also accommodate the possibility of a fee decrease.

3. Section 105.448. Determination of applicability of a general permit.—Clarity.

Nonregulatory language

Subsection (c) states that a project requiring registration under Section 105.447 “may” be charged an application fee. This is nonregulatory language. The final-form regulation should specify when an application fee will be charged.

4. Miscellaneous clarity.

- Clause 105.13(c)(1)(iv)(C) addresses circumstances when costs are less than \$250,000 and when costs exceed \$250,000. This should be amended to include the possibility that the amount of the total construction costs equals \$250,000.

- In Section 105.131a, the reference to Subparagraph 105.13(c)(viii) should be amended to 105.13(c)(1)(viii).
